

**STATE OF OKLAHOMA
WORKERS' COMPENSATION
COMMISSION**

2020

Medical Fee Schedule

Chairman Mark Liotta
Commissioner Jordan Russell
Commissioner Megan Tilly
Executive Director Hopper Smith

Effective July 1, 2020

NOTICE

The five character codes included in the Schedule of Medical Fees are obtained from *Current Procedural Terminology*, (CPT®), copyright 2019 by the American Medical Association (AMA). CPT is developed by the AMA as a listing of descriptive terms and five-character identifying codes and modifiers for reporting medical services and procedures.

The responsibility for the content of the Medical Fee Schedule is with the State of Oklahoma Workers' Compensation Commission and no endorsement by the AMA is intended or should be implied. The AMA disclaims any responsibility for any consequences or liability attributable or related to any use, nonuse or interpretation of information contained in the Medical Fee Schedule. Fee schedules, relative value units, conversion factors and/or related components are not assigned by the AMA, are not part of CPT®, and the AMA is not recommending their use. The AMA does not directly or indirectly practice medicine or dispense medical services. The AMA assumes no liability for data contained or not contained herein. Any use of CPT outside of the Medical Fee Schedule should refer to the most current *Current Procedural Terminology* which contains the complete and most current listing of CPT codes and descriptive terms. Applicable FARS/DFARS apply.

CPT® is a registered trademark of the American Medical Association.

The Code on Dental Procedures and Nomenclature is published in *Current Dental Terminology* (CDT), © American Dental Association (ADA). All rights reserved. CDT is a registered trademark of the American Dental Association. Fee schedules, relative value units, conversion factors and/or related components are not developed by the ADA, are not part of CDT, and the ADA is not recommending their use. The ADA assumes no liability for data contained or not contained herein.

FOREWORD

The Medical Fee Schedule does not limit how much a health care provider may bill; it outlines **maximum** reimbursement levels for health care providers, including hospitals and ambulatory surgical centers, rendering health care services to injured employees as provided in the Workers' Compensation Code, 85A O.S. § 1, et seq. It applies to all health care services rendered after July 1, 2020 to employees with compensable injuries, regardless of the employee's date of injury. The Medical Fee Schedule does not apply to:

- (1) health care services for which voluntary payments in excess of the reimbursement levels of the Schedule are made by a self-insured employer or an insurance carrier; or
- (2) disability evaluations provided as medical-legal evidence and performed by independent medical examiners appointed by the Workers' Compensation Commission as provided in the Workers' Compensation Code. Reimbursement of Commission-appointed independent medical examiners is governed by Workers' Compensation Commission 810:15-9-5.

This Schedule was adopted by the Oklahoma Legislature by HJR 1028 on May 14, 2020 as provided in 85A O.S. 50(H).

The Medical Fee Schedule is based on the 2020 Relative Value Units (RVU) produced by the Centers for Medicare and Medicaid Services (CMS) for the Medicare Physician Fee Schedule

and the CMS Clinical Lab and Average Sales Price fee schedules. The anesthesia base units are from the CMS list of anesthesia base values, which are adopted from the relative base values established by the American Society of Anesthesiologists (ASA). The outpatient and ambulatory surgery center (ASC) services section is based on the CMS Outpatient Prospective Payment system fee schedule. The inpatient hospital services portion of the Schedule utilizes the Medical Severity Diagnosis Related Groups (MS-DRG) system as the primary coding system for health care services rendered. The inpatient rehabilitation facility services portion of the Schedule utilizes the Case-Mix Groups (CMG) system as a coding system for health care services rendered. The Schedule also adopts the Centers for Medicare and Medicaid Services, CMS Healthcare Common Procedures Coding System (HCPCS) for the coding of certain supplies and materials, and for ambulance services. CDT codes used to report dental procedures are maintained by the American Dental Association (ADA). Fee data for medical procedures that are not valued by CMS and for dental procedures, are based on FAIR Health data for services rendered in Oklahoma.

Coding, billing and other issues, including disputes, associated with a claim, shall be determined in accordance with the CPT, CDT and HCPCS guidelines and National Correct Coding Initiative (NCCI) coding edits in effect at the time service is rendered, unless otherwise provided in this Medical Fee Schedule or by the Oklahoma Workers' Compensation Commission.

This page intentionally left blank.

INTRODUCTION

1. PROCEDURE CODES: For purposes of the Medical Fee Schedule, health care services and procedures shall be described in accordance with current procedural terminology codes and descriptions listed in *Current Procedural Terminology* (CPT), copyright 2019 by the American Medical Association.

The accompanying instructions and Ground Rules of the Medical Fee Schedule explain the application of these procedure descriptors and values in medical practice. All matters not specifically governed by the provisions of the Medical Fee Schedule shall be subject to the provisions of CPT 2020. If the provisions of the Medical Fee Schedule conflict with the provisions of CPT 2020, the provisions of the Medical Fee Schedule shall govern.

Maximum Allowable Reimbursement (MAR) amounts in the Medical Fee Schedule were developed by the Workers' Compensation Commission pursuant to 85A O.S., Section 50H.

2. FORMAT: The Oklahoma Medical Fee Schedule consists of fourteen sections: Evaluation and Management; Anesthesia; Surgery; Radiology; Pathology; Medicine; Physical Medicine; Dental Services; Durable Medical Equipment, Supplies, Orthotics and Prostheses; Ambulance Services; Pharmaceutical Services; Hospital Outpatient and Ambulatory Surgical Center Services; Inpatient Hospital Services; and Inpatient Rehabilitation Facility Services. The Schedule is divided into these sections for structural purposes only. Providers of medical services and/or suppliers are to use the section(s) which contain the procedures they perform, or the services they render.
3. GROUND RULES: Introductory material, known as Ground Rules, follows the Introduction and precedes the separate sections of this Schedule. The Ground Rules

contain the necessary general information, instructions, and general rules with which the user needs to become acquainted before undertaking the use of this Schedule. Familiarity with these general rules, which may include definitions, references, prohibitions, and directions for proper use, is necessary for all who use this Schedule. It is important to read and understand these Ground Rules before using this Schedule.

4. HOW TO INTERPRET THE FEE SCHEDULE DATA: The rate tables in each section of the Schedule are organized by columns, which may vary by section. Following is a description of the various columns:
 - a. CODE: The CPT or HCPCS code that is used to identify a procedure.
 - b. MODIFIER: Modifier 26 in this column indicates that the MAR is for the professional component of the service and Modifier TC indicates that the MAR is for the technical component of the service.
 - c. DESCRIPTION: The description of the procedure provided by the AMA (CPT codes) or CMS (HCPCS and MS-DRG).
 - d. CMG (CASE-MIX GROUPS) CODE: The CMG column lists the CMS Case-Mix Groups code as updated through October 1, 2019.
 - e. ANES (ANESTHESIA): The ANES column displays base units for anesthesia services as adopted by CMS based on anesthesia base units developed by the ASA. These units are used for reimbursement when an anesthesiologist, or a non-physician anesthesia provider such as a certified registered nurse anesthetist (CRNA) or anesthesiologist assistant (AA) rendering services within the scope of state

- licensure, provides anesthesia during a surgical procedure and bills using a CPT code or when the operating surgeon provides regional or general anesthesia for surgery.
- f. FUD (FOLLOW-UP DAYS): The FUD column lists the number of follow-up days included for a surgical procedure. Related professional services provided during the follow-up days period may not be billed in addition to the surgery. In counting follow-up days, day one is the day of surgery, (not the discharge day). This Schedule uses follow-up days published by CMS.
- g. PROF MAR (MAXIMUM ALLOWABLE REIMBURSEMENT): A MAR is listed for each code excluding Anesthesia codes, HCPCS codes, MS-DRGs and CMG codes. The PROF MAR column lists the maximum allowable reimbursement for a professional service or procedure performed and is billed on a CMS-1500 claim form. Certain radiology codes have separate MAR amounts for global services, the professional component as noted by Modifier 26, and the technical component as noted by Modifier TC.
- h. OP MAR: The OP MAR column shows the maximum allowable reimbursement amount for the facility service performed in a hospital outpatient or ambulatory surgery center setting. Facility services must be billed on a UB-04 claim form. If the OP MAR is blank, the service is not reimbursable to the facility.
- i. ADD-ON CODES: Services that may be performed only in conjunction with another primary CPT code are listed in the rate tables with a plus sign (+). Add-on services are reimbursable based on the MAR amounts listed in the Fee Schedule.
- j. MODIFIER 51 EXEMPT CODES: The multiple procedure rule does not apply to codes listed in the rate tables with a pound sign (#).
- k. APC: The APC column shows the CMS ambulatory payment classification to which the procedure code is assigned. The OP MAR is based on the APC payment rate.
- l. SI (Status Indicator): A J1 in the SI column indicates that a significant portion of the APC payment rate is attributable to the cost of a device or implant. See the Hospital Outpatient and Ambulatory Surgery Center Facility Ground Rules for details.
- m. BR (BY REPORT): Some services and procedures do not have a maximum allowable reimbursement amount because they are new, too variable or do not represent a uniform service or procedure. The MAR for these services and procedures are identified with a BR. Requested reimbursement should be substantiated by report and based on providers' usual and customary charges for similar services.

GENERAL GROUND RULES

General Information and Instructions

1. REPRODUCTION OF MEDICAL RECORDS, INCLUDING X-RAYS AND OTHER PHOTOGRAPHS AND IMAGES, AND PATHOLOGY SLIDES: Under the provisions of 76 O.S. § 19, providers (physicians, hospitals, medical professionals and institutions) may charge patients, former patients or the legal representative, spouse or responsible family member of any such person not more than One Dollar (\$1.00) for the first page and fifty cents (\$.50) for each subsequent page for copies of medical records other than any x-ray or other photograph or image or pathology slide. Reproduction of the record in digital form may be provided at a cost not to exceed twelve cents (\$.12) per digital page. The cost of each x-ray, other photograph or image, or pathology slide shall not exceed Five Dollars (\$5.00) or the actual cost of reproduction, whichever is less. Medical providers may charge a patient for the actual cost of mailing the patient's requested medical records, but may not charge an additional fee for searching, retrieving, reviewing or preparing such records for copying, or for providing copies by facsimile. Taxes, including sales taxes, are not reimbursable costs for reproduction of medical records.
2. MEDICAL TESTIMONY, INCLUDING DEPOSITIONS:
 - a. REIMBURSEMENT: Reimbursement for medical testimony given in person or by deposition shall be in accordance with the physician's usual and customary charges, not to exceed Four Hundred Dollars (\$400.00) per hour or any portion thereof, plus an allowance of One Hundred Dollars (\$100.00) for 15 minute increments thereafter.
 - b. PREPARATION TIME: Preparation time for medical testimony, including depositions, shall be reimbursed at the examiner's usual and customary charge, not to exceed Four Hundred Dollars (\$400.00).
 - c. CANCELLATION FEE: A Four Hundred Dollar (\$400.00) charge is allowable whenever a deposition or scheduled testimony is canceled by the employer or employee within three working days prior to the scheduled start of the deposition or scheduled testimony.
 - d. ADVANCE PAYMENT: A physician may request not more than Two Hundred Dollars (\$200.00) in advance in order to schedule a deposition. The advance payment shall be applied against amounts owed for testimony fees.
 - e. BILLING: All bills submitted for payment shall be itemized, including the number of hours required to perform the services, and shall refer to this Ground Rule and CPT Code 99075 for proper reimbursement.
3. DIAGNOSTIC TESTS: Pursuant to Title 85A O.S. § 50(C), diagnostic tests shall not be repeated sooner than six (6) months from the date of the test unless agreed to by the parties or ordered by the Workers' Compensation Commission for good cause shown.

This Ground Rule does **not** apply to reimbursement of a Commission-appointed independent medical examiner for medical testimony given in person or by deposition. Reimbursement of Commission-appointed independent medical examiners is governed by Workers' Compensation Commission Rule 810:15-9-5.

General Ground Rules

4. REPORT PREPARATION, BILLING AND MAXIMUM ALLOWANCE:

- a. Routine reports: Completion of routine reports or records is incorporated in all fees for service and is not reported separately. Routine reports include reports of diagnostic testing, procedure reports, progress notes, office notes, operative reports and return to work forms. Requests for additional copies of routine reports are reimbursable at the copying fee rates provided for in General Ground Rule 1.
- b. Physician's Report on Treatment of Workers' Compensation Injury: Effective August 26, 2011, Oklahoma law no longer requires a worker's treating physician to produce an initial report of the worker's injuries found at the time of examination and proposed treatment, or to produce a final report of treatment at the conclusion of treatment. However, if either report is prepared, reimbursement and billing is subject to this Ground Rule.
 - (1) Initial Report: If prepared, the maximum allowance for completion and submission of the initial report to the injured worker and the worker's employer is \$36.00. "F4-010" should be used as the billing code.
 - (2) Final Report: If prepared, the maximum allowance for completion and submission of the final report to the worker's employer is \$36.00. "F4-020" should be used as the billing code.
- c. Permanent Impairment Rating Services: Work-related or medical disability examinations described in CPT code 99455 that are performed by the treating physician, at the request of a party, and work-related or medical disability examinations described in CPT code 99456 that are performed by a physician other than the treating physician, at the request of a party, shall be reimbursed as provided below. CPT codes 99455 and

99456 require, among other things, a calculation of impairment.

- (1) REIMBURSEMENT: The review of records and information, the performance of any necessary examinations, and the preparation of the written report shall be billed and reimbursed at the physician's usual and customary rate, not to exceed Two Hundred Dollars (\$200.00) per hour, up to a maximum of three (3) hours. In a complex case, an additional fee of up to Two Hundred Dollars (\$200.00) may be allowed.
 - (2) DIAGNOSTIC TESTS: Payment for any required diagnostic tests shall be in accordance with this Medical Fee Schedule.
 - (3) CANCELLATION FEE: If an examination is canceled by the employee or the employer within forty-eight (48) hours of the scheduled time, a Two Hundred Dollar (\$200.00) fee is allowable for the cancellation.
 - (4) BILLING: All bills submitted for payment shall be itemized, including the number of hours required to perform the services, and shall refer to this Ground Rule and CPT code 99455 or 99456, as appropriate, for proper reimbursement.
- d. Narrative Reports: Party requested reports not otherwise addressed under this Ground Rule, including narrative reports involving the provider's review of medical data to clarify a patient's status or requesting more than the information conveyed in the usual medical communications or standard reporting form are special reports that may be billed using CPT code 99080. Except as otherwise agreed upon by the provider and requesting party, following is the maximum allowance for a special report:

General Ground Rules

First page.....	\$36.00
Each additional page	\$14.00
Not to exceed.....	\$64.00

- e. General Ground Rule 4 does **not** apply to:
 - (1) reports and services, including impairment evaluations, performed by an independent medical examiner appointed by the Workers' Compensation Commission. Reimbursement of independent medical examiners is governed by Workers' Compensation Commission Rule 810:15-9-5; or
 - (2) health care services (including work-related or medical disability services) performed under a written contract between a health care provider and an employer or insurance carrier entered into pursuant to 85A O.S., Section 50(H)(5).
5. BILLING PROCEDURES: If a service is billed using a procedure code not found in this fee schedule, but found in the AMA's *Current Procedural Terminology*, providers will be reimbursed in accordance with the Commission's methodology for "By Report" codes. Medical providers may not bill more than their usual and customary charge for any procedure. Reimbursement will be based on the lesser of the provider's usual and customary charge or the fee schedule MAR for each covered service on the claim.
6. MODIFIERS: Modifiers augment CPT codes to more accurately describe the circumstances of services provided. When applicable, the circumstances should be identified by a modifier code; a two-digit number, alpha, or alpha-numeric combination placed after the usual procedure code. If more than one modifier is needed, place the multiple modifiers code (99) after the procedure code to indicate that two or more modifiers will follow. See the Modifier section for information on specific modifiers and payment guidelines.
7. EXPLANATION OF BENEFITS: A payer shall provide a health care provider with a written explanation of benefits (EOB) whenever a coded service is denied or not reimbursed in full as billed; the amount reimbursed, if applicable; the reason for each denial or reduced reimbursement (including the citing of the specific general instruction, Ground Rule, or other provision of the Medical Fee Schedule serving as the basis for the denial or reduction); and the procedure code, if any, for which reimbursement was made when different from the code billed. If the reason for denial or reduced reimbursement is omission of one or more modifiers or usage of one or more incorrect modifiers, the EOB shall cite the expected modifier(s) for all applicable codes. If the reason for denial or reduced reimbursement is the incorrect use of a modifier, the EOB shall cite the modifier(s) incorrectly used. If the reason for a denial or reduced reimbursement is reliance upon usual and customary charge or reimbursement data, the EOB also must disclose the usual and customary data serving as the basis for each denial or reduction. "Usual and Customary Charge" as defined in the Medical Fee Schedule refers to the usual fee charged by the provider to all patients for the same or substantially similar services under like circumstances.
8. DISPUTES REGARDING PAYMENT FOR HEALTH CARE SERVICES: Disputes regarding payment for health care services rendered as provided in the Workers' Compensation Code may be addressed using informal dispute resolution procedures available through the Workers' Compensation Commission. The procedures include the Form 19 process, and mediation. A description of each follows.
 - a. WCC REVIEW OF DISPUTED CHARGES INVOLVING CONFLICTING INTERPRETATIONS OF THE WORKERS' COMPENSATION FEE SCHEDULE: Workers' Compensation Commission Rule 810:15-15-3 governs the review of payment disputes involving

General Ground Rules

- conflicting interpretations of the Medical Fee Schedule
- b. FORM 19 (MAY INVOLVE COMMISSION RESOLUTION OF DISPUTED CHARGES): Commission Rule 810:15-15-3 governs the process for health care providers seeking to recover charges for health care services, medicines or supplies provided to an injured employee. Health care providers may file a Form 19, Part I., Request For Payment Of Charges For Health Or Rehabilitation Services, if they have not received payment within 45 days of receipt by the employer or insurance carrier of a complete and accurate invoice, or if the employer or insurance carrier denies liability on a ground requiring judicial resolution. Such grounds include: (1) length of treatment; (2) necessity of treatment; (3) unauthorized physician; (4) denial of compensability of the claimant's claim; and (5) any other issues requiring a judicial determination. **The Workers' Compensation Commission will not set the Form 19 for hearing unless a CC-Form-9 (Motion to Set for Trial) also is filed.**
- c. MEDIATION: Mediation may be used to address certain workers' compensation disputes (including disputes regarding payment for medical and rehabilitative services). Mediation is the process of resolving disputes with the assistance of a mediator, outside of a formal court proceeding. The purpose of mediation is to identify issues, clarify misunderstandings, explore solutions, and negotiate settlement. It is an alternative to litigation.

Failure of an employer or insurance carrier to pay medical charges within the forty-five (45) day period as required by 85A O.S. § 50(H)(11), may result in a penalty, payable to the provider, of up to twenty-five percent (25%) of any amount due under the Medical Fee Schedule that

remains unpaid. Under 85A O.S. § 50(H)(11), if the Commission finds a pattern of willful and knowing delay of payments, it may assess a penalty of not more than Five Thousand Dollars (\$5,000.00) per occurrence, payable as directed by the Commission.

Under 85A O.S. § 50(H)(4), the right to recover charges for every type of medical care for compensable workers' compensation injuries lies solely with the Oklahoma Workers' Compensation Commission.

9. NATIONAL CORRECT CODING INITIATIVE (NCCI): For purposes of this Fee Schedule, the State of Oklahoma adopts the NCCI coding edits in effect on the date that the service is rendered by the physician or hospital. This editing system was implemented by the Centers for Medicare and Medicaid Services' (CMS) to promote national correct coding methodologies and identifies services that should not be reported together such as services that are a component of a more comprehensive service and services that are mutually exclusive. NCCI also includes Medically Unlikely Edits that identify a maximum number of units allowable under most circumstances for a single HCPCS or CPT code billed on a date of service for a single patient. For more information, see <https://www.cms.gov/Medicare/Coding/NationalCorrectCodInitEd/index>.

10. IMPLANTABLE MEDICAL DEVICES:

- a. For purposes of this Ground Rule, "implantables" means those services indicated by revenue codes 274 (prosthetic/orthotic devices), 275 (pace-maker), 276 (intraocular lens), and 278 (other implants), which involve an item or device intended for permanent placement in the body. "Implantable items" which are properly indicated by revenue code 278 include rods, pins, screws, plates, prosthetic joint replacements, anchors, artificial joints,

General Ground Rules

- mesh, radioactive seeds, shunts, stents, allografts, and autografts in addition to non-soluble, or solid plastic materials used to augment tissues or to fill in areas traumatically or surgically removed, and other items which are made of plastic, metallic, or of autogenous/ non-autogenous graft material that are implanted in the body either alone or in combination with other materials. FDA investigational devices (if left in the patient) billed through Revenue Code 624 are not eligible for reimbursement. Implants may deliver medication, monitor body functions, or provide support to organs and tissues. A supply or instrument that is purposed to be removed or discarded during the same inpatient or outpatient procedure in which they are placed in the body is not an implant. Liquids or materials that are absorbed or incorporated by the surrounding tissue will not be reimbursed if billed as an implant. In addition to meeting the above criteria, implants must also remain in the individual's body upon discharge from the inpatient stay or outpatient procedure. Staples, sutures, clips, as well as temporary drains, tubes, and similar temporary medical devices shall not be considered implants.
- b. Any entity that buys and resells implantable devices to a hospital, ambulatory surgical center or physician shall be limited to a markup of ten percent (10%) above the manufacturer's invoice price for that implantable device, adjusted to reflect all applicable discounts, rebates, considerations and product replacement programs.
11. DURABLE MEDICAL EQUIPMENT AND SUPPLIES PROVIDED BY PHYSICIAN: Durable medical equipment and supplies provided by the physician over and above those usually included with the office visit or other services rendered are governed by the Durable Medical Equipment, Supplies, Orthotics and Prostheses Ground Rules.
12. PHYSICIAN ASSISTANT, NURSE PRACTITIONER, ADVANCED PRACTICE REGISTERED NURSE AND REGISTERED NURSE FIRST ASSISTANT SERVICES:
- EVALUATION AND MANAGEMENT SERVICES: A certified physician assistant, nurse practitioner and an advanced practice registered nurse shall be allowed eighty-five percent (85%) of the fee schedule allowance for evaluation and management services provided a signed report details the findings of the examination and the CPT code level billed is supported by the signed report.
 - ASSISTANT TO SURGEON (IN LIEU OF ASSISTANT SURGEON): A certified physician assistant, nurse practitioner, advanced practice registered nurse or registered nurse first assistant used as a surgical assistant shall be reimbursed at ten percent (10%) of the fee schedule allowance for the procedure(s). The CPT codes billed must coincide with those of the surgeon. Physician assistant, nurse practitioner, advanced practice registered nurse or registered nurse first assistant fees are not payable when qualified hospital staff or ambulatory surgical center staff is provided to assist at surgery. An assistant surgeon and a certified physician assistant, nurse practitioner, advanced practice registered nurse or registered nurse first assistant, cannot both be present or their services billed on the same surgical case.
 - OTHER SERVICES: A physician assistant, nurse practitioner or advanced practice registered nurse shall be allowed eighty-five percent (85%) of the fee schedule allowance for any other services performed within the practitioner's license and certification.
 - MODIFIERS: When billing for services provided by a physician assistant, use the modifier "PA". When billing for

General Ground Rules

services provided by a nurse practitioner, use modifier “-NP”. When billing for services provided by an advanced practice registered nurse, use modifier “AP”. When billing for services provided by a registered nurse first assistant, use modifier “FA”.

13. “INCIDENT TO” SERVICES: Services that are furnished incident to physician professional services in the physician's office (whether located in a separate office suite or within an institution) or in a patient's home may be billed and reimbursed as if the physician personally provided the services. To qualify as an “incident to” service, the service must be part of a normal course of treatment, during which a physician personally performed an initial service and remains actively involved in the course of treatment. An “incident to” service must be provided by a practitioner who is directly supervised by the physician and represents a direct financial expense to the physician. The services must be an integral part of the patient's course of treatment. The physician does not have to be physically present in the patient's treatment room while these services are provided, but a physician in the group must provide direct supervision and be present to render assistance, if necessary. The patient record should document the essential requirements for an incident to service.

14. NO-SHOW FEE FOR MISSED APPOINTMENTS: If an injured worker fails to appear for a scheduled appointment with a physician, a Two Hundred Dollar (\$200.00) fee, to be paid initially by the employer or insurance carrier, is allowable for the failure to appear. The respondent shall be reimbursed by the injured worker if the failure to appear was determined by the Court to be without good cause. For purposes of this Ground Rule, “physician” means a treating physician, and a physician performing permanent impairment rating services described in General Ground Rule 4(c), but excludes a Commission-appointed independent medical examiner whose fees

are governed by Commission Rule 810:15-9-5. Bills submitted for payment of the no-show fee shall refer to this Ground Rule and CPT code 99499 with the modifier “NS”.

15. REQUIRED DISCLOSURES:

- a. Pursuant to 85A O.S. § 50 (H)(10), if a physician or an entity in which the physician has a financial interest, other than an ownership interest of less than five percent (5%) in a publicly traded company, provides implantable devices, that relationship must be disclosed to the patient, employer, insurance company, third party administrator, certified workplace medical plan, case manager, and legal counsel for the worker and employer/carrier. Workers' Compensation Commission CC-Form-17 shall be used for this purpose.
- b. Pursuant to 85A O.S. § 50(H)(13), physicians providing treatment shall disclose on the Workers' Compensation Commission CC-Form-17 any ownership interest in a healthcare facility, business or diagnostic center that is not the physician's primary place of business, including any employee leasing arrangement between the physician and any healthcare facility that is not the physician's primary place of business. Failure to do so is grounds for the Commission to disqualify the physician from providing treatment under the Workers' Compensation Code.

16. UNLISTED SERVICES OR PROCEDURES: A service or procedure that is not identified by a particular CPT code should be billed using the appropriate Unlisted Procedure code. Requested reimbursement should be substantiated by report and based on providers' usual and customary charges for similar services.

17. BY REPORT (BR): BR in the MAR column indicates that the value of the service is to be determined "by report" because the service is too unusual or variable to be assigned a

General Ground Rules

value. Reimbursement will be based on the usual and customary value for the service. "By report" codes must be substantiated by documentation reflecting the nature, extent and need for the procedure or service and the time, skill and equipment necessary. The following may be used to support reimbursement for BR codes as indicated:

- a. Diagnosis (postoperative), pertinent history and physical findings.
- b. Size, location and number of lesion(s) or procedure(s) where appropriate.
- c. Major surgical procedure with supplementary procedure(s).

d. Whenever possible, list the closest similar procedure by number and value. The "BR" value shall be consistent in value with other values in the Schedule.

- e. Estimated follow-up period, if not listed.
- f. Operative time.

18. EXCESSIVE OR UNNECESSARY PROCEDURES: Payment may be denied for procedures determined to be excessive or unnecessary for the management of the work-related injury or disease.

This page intentionally left blank.

MODIFIERS AND PAYMENT GUIDELINES

Modifiers may be included on bills to provide additional information about the services provided. When applicable, the modifier, a two-digit string, is appended to the procedure code. If more than one modifier is needed, place the multiple modifiers code 99 after the procedure code to indicate that two or more modifiers will follow.

22 Increased Procedural Services

When the work required to provide a service is substantially greater than typically required, it may be identified by adding modifier 22 to the usual procedure code. Documentation must support the substantial additional work and the reason for the additional work (i.e., increased intensity, time, technical difficulty of procedure, severity of patient's condition, physical and mental effort required). Note: This modifier should not be appended to an E/M service.

23 Unusual Anesthesia

Occasionally, a procedure, which usually requires either no anesthesia or local anesthesia, because of unusual circumstances must be done under general anesthesia. This circumstance may be reported by adding modifier 23 to the procedure code of the basic service.

24 Unrelated Evaluation and Management Services by the Same Physician or Other Qualified Health Care Professional During a Postoperative Period

The physician or other qualified health care professional may need to indicate that an evaluation and management service was performed during a postoperative period for a reason(s) unrelated to the original procedure. This circumstance may be reported by adding modifier 24 to the appropriate level of E/M service.

25 Significant, Separately Identifiable Evaluation and Management Service by the Same Physician or Other Qualified Health Care Professional on the Same Day of the Procedure or Other Service

It may be necessary to indicate that on the day a procedure or service identified by a CPT code was performed, the patient's condition required a significant, separately identifiable E/M service above and beyond the other service provided or beyond the usual preoperative and postoperative care associated with the procedure that was performed. A significant, separately identifiable E/M service is defined or substantiated by documentation that satisfies the relevant criteria for the respective E/M service to be reported (See Evaluation and Management Services Guidelines for instructions on determining level of E/M service). The E/M service may be prompted by the symptom or condition for which the procedure and/or service was provided. As such, different diagnoses are not required for reporting of the E/M services on the same date. This circumstance may be reported by adding modifier 25 to the appropriate level of E/M service. Note: This modifier is not used to report an E/M service that resulted in a decision to perform surgery. See modifier 57. For significant, separately identifiable non-E/M services, see modifier 59.

26 Professional Component

Certain procedures are a combination of a physician or other qualified health care professional component and a technical component. When the physician or other qualified health care professional component is reported separately, the service may be identified by adding modifier 26 to the usual procedure number.

Oklahoma guideline: When applicable, the MAR for the professional component is listed in the rate tables.

Modifiers and Payment Guidelines

TC Technical Component

Certain procedures are a combination of a professional component and a technical component. When the technical component is reported separately, the service may be identified by adding modifier TC to the usual procedure code. Technical component charges are institutional charges and not billed separately by physicians.

Oklahoma guideline: When applicable, the MAR for the technical component is listed in the rate tables.

27 Multiple Outpatient Hospital E/M Encounters on the Same Date

For hospital outpatient reporting purposes, utilization of hospital resources related to separate and distinct E/M encounters performed in multiple outpatient hospital settings on the same date may be reported by adding modifier 27 to each appropriate level outpatient and/or emergency department E/M code(s). This modifier provides a means of reporting circumstances involving evaluation and management services provided by physician(s) in more than one (multiple) outpatient hospital setting(s) (eg, hospital emergency department, clinic). Note: This modifier is not to be used for physician reporting of multiple E/M services performed by the same physician on the same date. For physician reporting of all outpatient evaluation and management services provided by the same physician on the same date and performed in multiple outpatient setting(s) (e.g., hospital emergency department, clinic), see Evaluation and Management, Emergency Department, or Preventive Medicine Services codes.

32 Mandated Services

Services related to mandated consultation and/or related services (e.g., third-party payer, governmental, legislative or regulatory requirement) may be identified by adding modifier 32 to the basic procedure.

47 Anesthesia by Surgeon

Regional or general anesthesia provided by the surgeon may be reported by adding modifier 47 to the basic service. (This does not include local anesthesia.) Note: Modifier 47 would not be used as a modifier for the anesthesia procedures.

Oklahoma guideline: Anesthesia services provided by a provider other than an anesthesiologist, CRNA or AA are not separately reimbursable.

50 Bilateral Procedure

Unless otherwise identified in the listings, bilateral procedures that are performed at the same session, should be identified by adding modifier 50 to the appropriate 5 digit code.

Oklahoma guideline: Procedures performed with a bilateral modifier are reimbursed at 150% of the MAR listed in the rate tables. Multiple procedure rules, when applicable, will apply based on the MAR listed in the rate tables.

51 Multiple Procedures

When multiple procedures, other than E/M Services, physical medicine and rehabilitation services, or provision of supplies (eg, vaccines), are performed at the same session by the same individual, the primary procedure or service may be reported as listed. The additional procedure(s) or service(s) may be identified by appending modifier 51 to the additional procedure or service code(s). Note: This modifier should not be appended to designated "add-on" codes.

Oklahoma guideline: This modifier should not be appended to designated "modifier 51 exempt" codes as specified in the Fee Schedule. Services reported with modifier 51 are reimbursed at 100% of the MAR for the first or major procedure. Additional procedures are reimbursed at 50% of the MAR.

Modifiers and Payment Guidelines

57 Decision for Surgery

An evaluation and management service that resulted in the initial decision to perform the surgery may be identified by adding modifier 57 to the appropriate level of E/M service.

52 Reduced Services

Under certain circumstances a service or procedure is partially reduced or eliminated at the discretion of the physician or other qualified health care professional. Under these circumstances the service provided can be identified by its usual procedure number and the addition of modifier 52, signifying that the service is reduced. This provides a means of reporting reduced services without disturbing the identification of the basic service. Note: For hospital outpatient reporting of a previously scheduled procedure/service that is partially reduced or cancelled as a result of extenuating circumstances or those that threaten the well being of the patient prior to or after administration of anesthesia, see modifiers 73 and 74 (see modifiers approved for ASC hospital outpatient use).

53 Discontinued Procedure

Under certain circumstances the physician or other qualified health care professional may elect to terminate a surgical or diagnostic procedure. Due to extenuating circumstances or those that threaten the well being of the patient, it may be necessary to indicate that a surgical or diagnostic procedure was started but discontinued. This circumstance may be reported by adding modifier 53 to the code reported by the individual for the discontinued procedure. Note: This modifier is not used to report the elective cancellation of a procedure prior to the patient's anesthesia induction and/or surgical preparation in the operating suite. For outpatient hospital/ambulatory surgery center (ASC) reporting of a previously scheduled procedure/service that is partially reduced or cancelled as a result of extenuating circumstances or those that threaten the well being of the patient prior to or after administration of anesthesia, see modifiers 73 and 74 (see modifiers approved

for ASC hospital outpatient use).

54 Surgical Care Only

When one physician or other qualified health care professional performs a surgical procedure and another provides preoperative and/or postoperative management, surgical services may be identified by adding modifier 54 to the usual procedure number.

Oklahoma guideline: The MAR shall be apportioned between providers by agreement and in accordance with medical ethics. Identify and indicate whether the value is for the procedure, pre-operative or follow-up care, rather than the whole. The "global fee" is not increased, but pro-rated between the providers.

55 Postoperative Management Only

When one physician or other qualified health care professional performed the postoperative management and another performed the surgical procedure, the postoperative component may be identified by adding modifier 55 to the usual procedure number.

Oklahoma guideline: The MAR shall be apportioned between providers by agreement and in accordance with medical ethics. Identify and indicate whether the value is for the procedure, pre-operative or follow-up care, rather than the whole. The "global fee" is not increased, but pro-rated between the providers.

56 Preoperative Management Only

When one physician or other qualified health care professional performed the preoperative care and evaluation and another performed the surgical procedure, the preoperative component may be identified by adding modifier 56 to the usual procedure number.

Oklahoma guideline: The MAR shall be apportioned between providers by agreement and in accordance with medical ethics. Identify and indicate whether the

Modifiers and Payment Guidelines

value is for the procedure, pre-operative or follow-up care, rather than the whole. The "global fee" is not increased, but pro-rated between the providers.

58 Staged or Related Procedure or Service by the Same Physician or Other Qualified Health Care Professional During the Postoperative Period

It may be necessary to indicate that the performance of a procedure or service during the postoperative period was: (a) planned or anticipated (staged); (b) more extensive than the original procedure; or (c) for therapy following a surgical procedure. This circumstance may be reported by adding modifier 58 to the staged or related procedure. Note: For treatment of a problem that requires a return to the operating/procedure room, (e.g. unanticipated clinical condition), see modifier 78.

59 Distinct Procedural Service

Under certain circumstances, it may be necessary to indicate that a procedure or service was distinct or independent from other non-E/M services performed on the same day. Modifier 59 is used to identify procedures/services other than E/M services that are not normally reported together, but are appropriate under the circumstances. Documentation must support a different session, different procedure or surgery, different site or organ system, separate incision/excision, separate lesion, or separate injury (or area of injury in extensive injuries) not ordinarily encountered or performed on the same day by the same individual. However, when another already established modifier is appropriate, it should be used rather than modifier 59. Only if no more descriptive modifier is available, and the use of modifier 59 best explains the circumstances, should modifier 59 be used. Note: Modifier 59 should not be appended to an E/M service. To report a separate and distinct E/M service with a non-E/M service performed on the same date, see modifier 25.

62 Two Surgeons

When two surgeons work together as primary surgeons performing distinct part(s) of a procedure, each surgeon should report his/her distinct operative work by adding modifier 62 to the procedure code and any associated add-on code(s) for that procedure as long as both surgeons continue to work together as primary surgeons. Each surgeon should report the co-surgery once using the same procedure code. If additional procedure(s) (including add-on procedure(s)) are performed during the same surgical session, separate code(s) may also be reported with modifier 62 added. Note: If a co-surgeon acts as an assistant in the performance of additional procedure(s), other than those reported with the modifier 62, during the same surgical session, those services are reported using separate procedure code(s) with modifier 80 or modifier 82 added, as appropriate.

Oklahoma guideline: This modifier is reimbursed at the provider's usual and customary rate up to 75% of the MAR for each surgeon.

66 Surgical Team

Under some circumstances, highly complex procedures (requiring the concomitant services of several physicians or other qualified health care professionals, often of different specialties, plus other highly skilled, specially trained personnel, various types of complex equipment) are carried out under the "surgical team" concept. Such circumstances may be identified by each participating individual with the addition of modifier 66 to the basic procedure number used for reporting services.

73 Discontinued Out-Patient Hospital/Ambulatory Surgery Center (ASC) Procedure Prior to the Administration of Anesthesia

Due to extenuating circumstances or those that threaten the well being of the patient, the physician may cancel a surgical or diagnostic procedure subsequent to the patient's surgical preparation (including sedation

Modifiers and Payment Guidelines

when provided, and being taken to the room where the procedure is to be performed), but prior to the administration of anesthesia (local, regional block(s) or general). Under these circumstances, the intended service that is prepared for but cancelled can be reported by its usual procedure number and the addition of modifier 73. Note: The elective cancellation of a service prior to the administration of anesthesia and/or surgical preparation of the patient should not be reported. For physician reporting of a discontinued procedure, see modifier 53.

74 Discontinued Out-Patient Hospital/Ambulatory Surgery Center (ASC) Procedure After Administration of Anesthesia

Due to extenuating circumstances or those that threaten the well-being of the patient, the physician may terminate a surgical or diagnostic procedure after the administration of anesthesia (local, regional block(s), general) or after the procedure was started (incision made, intubation started, scope inserted, etc.). Under these circumstances, the procedure started but terminated can be reported by its usual procedure number and the addition of modifier 74. Note: The elective cancellation of a service prior to the administration of anesthesia and/or surgical preparation of the patient should not be reported. For physician reporting of a discontinued procedure, see modifier 53.

76 Repeat Procedure or Service by Same Physician or Other Qualified Health Care Professional

It may be necessary to indicate that a procedure or service was repeated by the same physician or other qualified health care professional subsequent to the original procedure or service. This circumstance may be reported by adding modifier 76 to the repeated procedure or service. **Note:** This modifier should not be appended to an E/M service.

77 Repeat Procedure by Another Physician or Other Qualified Health Care Professional

It may be necessary to indicate that a basic procedure or service was repeated by another physician or other qualified health care professional subsequent to the original procedure or service. This circumstance may be reported by adding modifier 77 to the repeated procedure or service. Note: This modifier should not be appended to an E/M service.

78 Unplanned Return to the Operating/Procedure Room by the Same Physician or Other Qualified Health Care Professional Following Initial Procedure for a Related Procedure During the Postoperative Period

It may be necessary to indicate that another procedure was performed during the postoperative period of the initial procedure (unplanned procedure following initial procedure). When this procedure is related to the first, and requires the use of an operating/procedure room, it may be reported by adding modifier 78 to the related procedure. (For repeat procedures, see modifier 76.)

79 Unrelated Procedure or Service by the Same Physician or Other Qualified Health Care Professional During the Postoperative Period

The individual may need to indicate that the performance of a procedure or service during the postoperative period was unrelated to the original procedure. This circumstance may be reported by using modifier 79. (For repeat procedures on the same day, see modifier 76.)

80 Assistant Surgeon

Surgical assistant services may be identified by adding modifier 80 to the usual procedure number(s).

Oklahoma guideline: Reimbursement is 20% of the MAR listed in the rate tables.

Modifiers and Payment Guidelines

81 Minimum Assistant Surgeon

Minimum surgical assistant services are identified by adding modifier 81 to the usual procedure number.

Oklahoma guideline: Reimbursement is 10% of the MAR listed in the rate tables.

82 Assistant Surgeon (when qualified resident surgeon not available)

The unavailability of a qualified resident surgeon is a prerequisite for use of modifier 82 appended to the usual procedure code number(s).

Oklahoma guideline: Reimbursement is 20% of the MAR listed in the rate tables.

95 Synchronous Telemedicine Service Rendered Via a Real-Time Interactive Audio and Video Telecommunications System

Synchronous telemedicine service is defined as a real-time interaction between a physician or other qualified health care professional and a patient who is located at a distant site from the physician or other qualified health care professional. The totality of the communication of information exchanged between the physician or other qualified health care professional and the patient during the course of the synchronous telemedicine service must be of an amount and nature that would be sufficient to meet the key components and/or requirements of the same service when rendered via a face-to-face interaction. Modifier 95 may only be appended to the services listed in Appendix P of CPT 2020. Appendix P is the list of CPT codes for services that are typically performed face-to-face, but may be rendered via a real-time (synchronous) interactive audio and video telecommunications system.

99 Multiple Modifiers

Under certain circumstances 2 or more modifiers may be necessary to completely delineate a service. In such situations, modifier 99 should be added to the basic procedure and other applicable modifiers may be listed as part of the description of the service.

AS Physician Assistant, Nurse Practitioner, Advanced Practice Registered Nurse, Clinical Nurse Specialist Services, or Registered Nurse First Assistant for Assistant at Surgery

Assistant at surgery services provided by another qualified individual (e.g., physician assistant, nurse practitioner, advanced practice registered nurse, clinical nurse specialist, registered nurse first assistant) and not another physician are identified by adding modifier AS to the listed applicable surgical procedures. Modifier AS may be appended to any code identified as appropriate for surgical assistance in this Fee Schedule.

Oklahoma guideline: Reimbursement is 10% of the MAR listed in the rate tables.

NU New Equipment

RR Rental

UE Used Durable Medical Equipment

QZ CRNA Service Without Medical Direction by a Physician

Report modifier QZ with an appropriate CPT code when all anesthesia services are performed by a CRNA.

Oklahoma guideline: Reimbursement is 90% of the MAR based on the formula for reimbursing anesthesia services.

Mid Level Practitioners (Oklahoma Specific)

The following modifiers should be used to denote when a service is provided by one of the following practitioners:

AP Advanced Practice Registered Nurse

FA Registered Nurse First Assistant

NP Nurse Practitioner

PA Physician Assistant

EVALUATION AND MANAGEMENT GROUND RULES

General Information and Instructions

1. GENERAL: Visits, examinations, consultations, and similar services as listed in this section reflect the wide variations in time and skill required in the diagnosis and treatment of illness or injury. Documentation for each aspect of the service performed should be included in the patient record to substantiate the level of service. The listed values for each code group apply only when these services are performed by or under the responsible supervision of a physician.
2. CONCURRENT CARE: When more than one physician treats a patient for the same condition during the same period of time, payment is made only to one physician; the one whose specialty is most relevant to the diagnosis.

When the condition of the patient requires the distinct and separate skills of two or more physicians to treat different conditions which do not fall within the scope of other physicians treating the patient at the same time, payment is due each physician who plays an active role in the treatment program. The services rendered by each physician shall be distinct, in different disciplines, identifiable and adequately documented in the records and reports.

3. ALTERNATING PHYSICIANS: When physicians of similar skills alternate in the care of a patient, (e.g., partners, groups or same facility; covering for another physician on weekends or vacation periods) each physician shall bill individually for the services each personally rendered.
4. CONSULTATIONS AND REFERRALS: A **consultation** is a service rendered by a **specialist** at the request of the treating physician or other appropriate source seeking further evaluation and/or an opinion on how to proceed in the management of a

patient's illness. Consultations always require a narrative report from the consultant to the treating physician requesting the opinion. A detailed narrative report is required and shall accompany the bill. A reproduction of a form report is not acceptable since the particulars relevant to one individual will not be applicable to another patient. When the consulting specialist assumes responsibility for the continuing care of the patient, any subsequent service rendered by him/her will cease to be a consultation. Subsequent care will be reimbursed according to the actual level of service rendered.

Consultations are reimbursed using CPT codes 99201-99205 for office-based consultations and 99221-99213 for inpatient consultations.

A **referral** is the transfer of a patient to a specialist for diagnosis and, where necessary, treatment of a specific illness or injury, rather than for advice. A referral will be reimbursed according to the actual level of services evaluation and management services rendered.

5. NEW PATIENT: "New patient" means a patient who is new to the health care provider, group practice, or caregiver and/or whose medical and administrative records need to be established. A patient shall also be considered a new patient if seen for a new injury or disability or when a lapse of three or more years from the most recent prior visit has occurred.
6. ESTABLISHED PATIENT: An established patient is one who has received professional services from the physician within the last three years or whose medical and administrative records are available to the physician. In the instance where a physician

Evaluation and Management

is covering for or on call for another physician, the patient's encounter will be classified as it would have been by the physician who is not available.

7. SIGNIFICANT, SEPARATELY IDENTIFIABLE EVALUATION AND MANAGEMENT SERVICE BY THE SAME PHYSICIAN ON THE DAY OF A PROCEDURE: Evaluation and Management services above and beyond normal preoperative and postoperative care

associated with a procedure and performed on the same day may be reimbursed. Services of this nature must be substantiated by report. Use modifier 25 to indicate this type of service.

8. LEVELS AND COMPONENTS OF SERVICE: Reference should be made to the *Physicians' Current Procedural Terminology*, (CPT 2020), by the American Medical Association for information on Levels of Service and Components of Service.

ANESTHESIA GROUND RULES

General Information and Instructions

1. GENERAL:

- a. The maximum allowable reimbursement for anesthesia services administered by an anesthesiologist shall be in an amount calculated per these Ground Rules. The maximum allowable reimbursement for anesthesia services administered by a non-physician anesthesia provider such as a certified registered nurse anesthetist (CRNA) or anesthesiologist assistant (AA) rendering services within the scope of state licensure shall not exceed ninety percent (90%) of that amount.
 - b. Anesthesia services are reimbursable only when the anesthesia is personally administered by an anesthesiologist, CRNA or AA who remains in constant attendance during the procedure, for the sole purpose of rendering such anesthesia service. The MAR for anesthesia services includes preoperative and postoperative visits, the administration of the anesthetic and the administration of fluids and/or blood incident to anesthesia or surgery.
 - c. The anesthesia allowable includes recovery room care. No additional time units are allowed for recovery room observation and monitoring.
2. Anesthesia services are reimbursed using a formula based on CMS base units provided for CPT codes for anesthesia services in addition to time units and units assigned based on special circumstances or physical status, to which a dollar conversion factor is applied.
 - a. Base Units: base units are provided by CMS as adapted from the American Society of Anesthesiologists (ASA). Base units reflect the complexity of the service

and include pre- and postoperative visits, intubation, and care by the anesthesiologist/anesthesia professional during the procedure, the administration of fluids and blood, the usual monitoring services and extubation. Specialized forms of monitoring including central venous, intra-arterial, and Swan-Ganz monitoring are considered unusual and may be coded and billed separately.

- b. Time Units: Anesthesia time begins when the anesthesiologist, CRNA or AA starts physically to prepare the patient for the induction of anesthesia in the operating room area (or in an equivalent area) and ends when the patient is placed under postoperative supervision. Anesthesia time units are computed by allowing one unit for each 15 minutes or significant fraction thereof of anesthesia time. Eight (8) minutes or greater is considered a significant portion of a time unit for calculating additional time units of less than 15 minutes.

For surgeries greater than two (2) hours, the maximum allowable reimbursement shall be calculated using the conversion factor and time units set forth in this Medical Fee Schedule or by using the former conversion factor and former time units as set forth in the 2012 Oklahoma Schedule of Medical and Hospital Fees, whichever is greater.

Actual time of beginning and duration of anesthesia time may require documentation, such as a copy of the anesthesia record in the hospital file. This documentation is not required to be provided unless a dispute arises between the payer and anesthesia provider regarding the anesthesia time.

Anesthesia

- c. Physical Status Modifiers: The following physical status modifiers are consistent with the ASA ranking of patient physical status and distinguish various levels of complexity of the anesthesia service provided. All anesthesia services are reported by use of the anesthesia five-digit procedure codes (00100 - 01999) with the appropriate physical status modifier appended. Under certain circumstances, when another established modifier(s) is appropriate, it should be used in addition to the physical status modifier.

Physical Status Modifiers: Physical Status modifiers are represented by the initial letter 'P' followed by a single digit from 1 to 6 defined below:

Physical Status Modifier	Description	Additional Base Units
P1	A normal healthy patient	0
P2	A patient with mild systemic disease	0
P3	A patient with severe systemic disease	1
P4	A patient with severe systemic disease that is a constant threat to life	2
P5	A moribund patient who is not expected to survive without the operation	3
P6	A patient declared brain-dead whose organs are being removed for donor purposes	0

- d. Qualifying Circumstances: Anesthesia services may be provided under difficult circumstances based on factors such as the extraordinary condition of the patient,

unusual risk factors, patient age and management of body temperature or blood flow. More than one qualifying circumstance may be selected. These procedures would not be reported alone; they are add-on codes reported in addition to another anesthesia procedure or service.

CPT Code	Description	Units
99100	Anesthesia for patient of extreme age, younger than 1 year and older than 70 (List separately in addition to code for primary anesthesia procedure.)	1
99116	Anesthesia complicated by utilization of total body hypothermia (List separately in addition to code for primary anesthesia procedure.)	5
99135	Anesthesia complicated by utilization of controlled hypotension (List separately in addition to code for primary anesthesia procedure.)	5
99140	Anesthesia complicated by emergency conditions (specify) (List separately in addition to code for primary anesthesia procedure.)	2

- e. Conversion Factor: The conversion factor for anesthesia services provided under this fee schedule is \$48.50.
- f. Calculation: The MAR for anesthesia services is calculated by multiplying the dollar conversion factor times the total number of units, including base units, time units and physical status modifiers and/or qualifying services if applicable.

When multiple surgical procedures are performed during the same period of anesthesia, use the base units for the highest/most complex anesthesia service and the time units applicable for the entire period of anesthesia time.

Anesthesia

3. Example Anesthesia Calculation: For an anesthesia time of two hours for CPT 01382, anesthesia for arthroscopic procedure of knee joint:

Conversion factor = 48.50

Base Units = 3

Time Units = 8 (4 units per hour)

Physical Status Modifier value = 1

Qualifying Circumstance value = 0

$$48.50 * (3+8+1)$$

$$48.50 * 12 = \$582.00$$

4. SUPPLEMENTAL SKILLS: When warranted by the necessity of supplemental skills, reimbursement for the services of two or more physicians and/or anesthetists will be allowed. The need for supplemental skills should be substantiated by report.

5. MONITORING SERVICES: When an anesthesiologist, CRNA or AA is required to participate in and be responsible for monitoring the general care of the patient during a surgical procedure but does not administer anesthesia, these services are charged on the basis of the extent of the services rendered. Payment will be made on the basis of the time units the anesthesiologist, CRNA or AA is in constant attendance for the sole purpose of the monitoring services. Anesthesia base unit values will not be added.

6. ANESTHESIA ADMINISTERED BY OTHER THAN AN ANESTHESIOLOGIST, CRNA OR AA: Anesthesia fees are not payable when local infiltration, digital block or topical anesthesia is administered by the operating surgeon or surgical assistants. Such services are included in the value for the surgical procedure.

7. MISCELLANEOUS:

- a. For cardiopulmonary resuscitation (separate procedure unrelated to the administration of anesthesia) see CPT 92950.
- b. MAR values for office and hospital visits, consultations and other medical services, x-rays, surgery, and laboratory procedures are listed in the sections entitled "Evaluation and Management", "Medicine", "Surgery", "Radiology", and "Pathology". A consultation fee is not payable to an anesthesiologist, CRNA or AA examining the patient before administering anesthesia to that patient. No additional charge is to be made for routine follow-up care and observation.

Surgery

SURGERY GROUND RULES

General Information and Instructions

1. PACKAGE OR GLOBAL FEE CONCEPT: The listed maximum allowable reimbursement (MAR) for all surgical procedures includes the surgery, local infiltration, digital block and/or topical anesthesia when used and the normal follow-up care for the period indicated in days in the follow-up days (FUD) column.

Regional or general anesthesia provided by the operating surgeon can be charged for by using the only the base units for the corresponding anesthesia code. Anesthesia Ground Rule 1(a) governs calculation of the MAR for such anesthesia services.

Payment is for the procedure coded and described, irrespective of the method(s) or appliance(s) used to perform the procedure. The MAR amounts are applicable to all physicians who perform the listed services.

2. IMMEDIATE PREOPERATIVE VISITS AND OTHER SERVICES BY THE SURGEON: Under most circumstances, including ordinary referrals, the immediate preoperative visit in the hospital or elsewhere necessary to examine the patient, complete the hospital records, and initiate the treatment program is included in the listed MAR for the surgical procedure.
3. ADDITIONAL CHARGES MAY BE WARRANTED FOR PREOPERATIVE SERVICES UNDER THE FOLLOWING CIRCUMSTANCES:

- When the preoperative visit is the initial visit (e.g., an emergency) and prolonged detention or evaluation is required to prepare the patient or to establish the need for and type of surgical procedure.
- When the preoperative visit is an initial consultation.

c. When procedures not usually part of the basic surgical procedure (e.g., myelography prior to laminectomy, bronchoscopy prior to chest surgery) are provided during the immediate preoperative period.

4. FOLLOW-UP CARE FOR DIAGNOSTIC PROCEDURES (E.G., ENDOSCOPY, INJECTION PROCEDURES FOR RADIOGRAPHY): includes only that care related to recovery from the diagnostic procedure itself. Care of the condition for which the diagnostic procedure was performed or of other concomitant conditions is not included and may be charged for in accordance with the services rendered.
5. MULTIPLE PROCEDURES: When multiple procedures, unrelated to the major procedure and adding significant time or complexity are provided at the same operative session, reimbursement for the major procedure is at 100% of the MAR listed in the rate tables and 50% for the additional procedure(s). Reimbursement for multiple procedures are subject to the National Correct Coding Initiative (NCCI) coding edits. Each active NCCI edit has a modifier indicator of 0 or 1. If a code pair has a modifier indicator of "1", when medically necessary and supported by documentation, these codes may be reimbursed together. (See General Ground Rule 9 for more information on NCCI. Multiple procedure guidelines do not apply to procedures codes that appear in the rate tables with a ☷ sign. These services are Modifier 51 exempt. See Surgery Ground Rule 14.)

Multiple related procedures shall not warrant any additional reimbursement except in those areas where separate codes are listed. Related procedures are those without which the principal procedure cannot be

Surgery

adequately performed.

EXAMPLES:

Related Procedures:

- a. Open reduction of a fracture: The excision of a previous scar(s), the incision of fascia(s) and muscle(s), the identification and retraction of nerves, muscles and area structures and the closure of the wound irrespective of type of closure are all related to the principal procedure of the bone repair and merit no additional reimbursement.
- b. Repair of a tendon: The skin incision and linear closure, as well as the identification, incision and retraction of adjacent or overlying structures are related to the principal procedure and merit no additional reimbursement.

Unrelated Procedures:

- a. Multiple lacerations of an area such as the face when such lacerations are not continuous.
- b. Fractures of arm (humerus) and of the forearm (radius and/or ulna) in the same extremity are considered as two distinct areas and when treated by reduction and/or suturing, the unrelated procedures rule applies. If, however, these are treated in an office or outpatient site after the follow-up period(s) expires, they will be considered as related procedures.

For **incidental procedures** (e.g., incidental appendectomy, incidental scar excisions, puncture of ovarian cysts, lysis of adhesions, etc.) additional reimbursement is not warranted. The closure of an incision or laceration incidental to the repair of deeper structures such as nerves, tendons, etc., does not merit any additional reimbursement irrespective of the method of closure.

When more than one identifiable surgical procedure or service related to the care of

the same patient is rendered during the total follow-up period, an additional reimbursement may be warranted. Identify each and reimburse as follows: The major procedure at full value and fifty percent (50%) for the lesser procedure(s) (e.g., unsuccessful closed reduction of a fracture followed on a different day by open reduction). Applying traction prior to either planned subsequent closed or open reduction shall not warrant additional reimbursement.

6. FOLLOW-UP OR AFTERCARE:

- a. Follow-up care for therapeutic surgical procedures includes all normal postoperative care. Uncommon or unusual complications, recurrence or the presence of other diseases or injuries requiring significant additional services concurrent with the procedure(s) or during the listed period of follow-up care may warrant additional reimbursement. If such charges are made, explain by report with adequate description.
- b. When an additional surgical procedure(s) is performed during the stated follow-up period and is related to the previously performed procedure(s) but is not an intrinsic part of the latter, the additional procedure will be paid at fifty percent (50%). In these instances, the follow-up periods will continue concurrently to their normal termination.
- c. When multiple procedures and/or services are performed concurrently or sequentially within the same operative or treatment setting, the longest follow-up period will apply to all as one item.

7. SEPARATE OR INDEPENDENT PROCEDURES:

Certain of the listed procedures are commonly carried out as an integral part of a total service, and as such do not warrant a separate charge. When such a procedure is carried out as a separate procedure not immediately related to other services, the MAR for the "Separate

Surgery

- Procedure" is applicable.
8. PRIMARY, SECONDARY OR DELAYED PROCEDURES: A **primary** procedure refers to one that is attempted or performed for the first time, irrespective of the time relationship to the date of injury or the onset of the condition being treated. **Secondary** refers to treatment of a condition that has been specifically treated previously and is being treated subsequently. For example, where a tendon is lacerated and it is elected to close the laceration without suturing the tendon, the first direct repair of the tendon would constitute a delayed but primary repair. In this example, if the first repair is unsuccessful any subsequent repair of the tendon would be a secondary procedure. **Delayed** procedures have the same MAR as primary procedures.
9. OPERATIVE REPORT AND BILLING: A bill for an operative procedure(s) shall not be deemed properly submitted unless and until an operative report is received by the payer. If performed in a hospital operating site, a copy of the hospital operative report shall be submitted. If in other sites, identify the location as well as submitting an informative description of the surgery performed.
10. CONCURRENT SERVICES BY MORE THAN ONE PHYSICIAN: Charges for concurrent services of two or more physicians may be warranted under the following circumstances:
- IDENTIFIABLE MEDICAL SERVICES: Identifiable medical services provided prior to or during the surgical procedure or in the postoperative period are to be billed by the physician(s) rendering the service(s) and identified by the appropriate code and value. Such services are unrelated to the surgeon's fees.
 - ASSISTANT SURGEON: Identify surgery performed by CPT code and description. The code(s) must be the same as those billed by the primary
- surgeon. Reimbursement will be at twenty percent (20%) of the MAR for the code. Use modifiers 80 or 82 to report services by an assistant surgeon.
- Assistant surgeon fees are not payable when the hospital or ambulatory surgical center provides intern or resident staff to assist at surgery.
- c. TWO SURGEONS: Under certain circumstances the services of two surgeons (usually with different skills) may be required in the management of a specific surgical problem. When two surgeons work together as **primary** surgeons performing distinct part(s) of a procedure, each surgeon should report his/her distinct operative work by adding the modifier 62 to the procedure code and any associated add-on code(s) for that procedure **as long as both Surgeons continue to work together as primary surgeons.**
- Each surgeon should report the co-surgery once using the same procedure code. If additional procedure(s), including add-on procedure(s), are performed during the same surgical session, separate code(s) may also be reported with the modifier 62 added as long as both surgeons are co-surgeons. Under these circumstances, the MAR for the additional services may be increased by twenty-five percent (25%) and each surgeon is reimbursed at 62.5% of the MAR. By prior agreement, the total MAR for the procedure(s) may be apportioned differently in relation to the responsibility and work done.
- Note:** If a co-surgeon acts as an assistant in the performance of additional procedure(s) during the same surgical session, those services may be reported using separate procedure code(s) with the modifier 80 or 82 added, as appropriate.

Surgery

- d. SURGICAL TEAM: Under some circumstances highly complex procedures (e.g., open heart or organ transplant surgery) requiring the concomitant services of several physicians, often of different specialties, plus other highly skilled, specially trained personnel and various types of complex equipment are carried out under the "surgical team" concept with a single fee charged for the total service. The services covered vary widely and a single value cannot be assigned. The situations should be identified. The value should be supported by a report to include itemization of the physician services, paramedical personnel and equipment involved.
11. SURGERY AND FOLLOW-UP CARE PROVIDED BY DIFFERENT PHYSICIANS: When one physician performs the surgical procedure itself and another provides the follow-up care, the MAR may be apportioned between them by agreement and in accordance with medical ethics. Identify and indicate whether the value is for the procedure or the follow-up care, rather than the whole. The "global fee" is not increased, but pro-rated between the physicians.
12. PRORATION OF SCHEDULED MAR: When the schedule specifies a MAR for a definite treatment with an inclusive period of after-care (follow-up days), and the patient is transferred from one physician to another, the employer or insurance carrier is only responsible for the total amount listed in the schedule, such amount to be apportioned between the physicians. The treating physicians shall agree upon the amount of proration, and shall render separate bills accordingly.
13. REPEAT PROCEDURE BY ANOTHER PHYSICIAN: A basic procedure performed by another physician may have to be repeated. Identify and submit an explanatory note.
14. MODIFIER 51 EXEMPT PROCEDURES: Modifier 51 (Multiple Procedures) is not applicable to certain procedures that are designated with a ☷ sign in the rate tables. The MAR listed in the Schedule should be used and Surgery Ground Rule 5 will not apply.
15. MEASUREMENTS IN CPT DESCRIPTIONS: Measurements listed in code descriptions refer to the **original wound(s) or defect(s)** before any treatment is provided. The stated MAR is inclusive of any additional creation of a defect and the necessary preparations for repair merit no additional reimbursement. The depth of a wound is not a factor in the measurements when the CPT description is stated in terms of length or square centimeters or square inches.

RADIOLOGY GROUND RULES

General Information and Instructions

1. PHOTOGRAPHIC MEDIA AND/OR IMAGING: The use of digital or photographic media and/or imaging is not reported separately but is considered to be a component of the basic procedure and shall not merit any additional payment.
2. PROCEDURE CODES: The listed PROF MAR for radiology procedures apply only when these services are performed by or under the supervision of a physician. The five-digit CPT code is used to identify the radiology service which can be billed in multiple ways on the CMS-1500 claim form:
 - a. NO MODIFIER: The MAR is based on the total (global) radiology service including the professional service and the technical component of providing that service.
 - b. MODIFIER 26: The MAR is based on the professional component, which includes examination of the patient, performance and/or supervision of the procedure, interpretation and written report of the examination and consultation with the referring physician(s).
 - c. MODIFIER TC indicates that only the technical component is included on the bill. The technical component includes personnel, materials, space, equipment and other allocated facility overhead normally included in providing the service.
3. SUPERVISION AND INTERPRETATION ONLY: A code designated as "Supervision and Interpretation only" is used to indicate radiological services provided by a radiologist and staff, in conjunction with services provided by another physician (i.e., injection, insertion of catheter). In this instance, a physician other than the radiologist should bill using the appropriate procedure code and the radiologist should bill using the appropriate "Supervision and Interpretation" only code. If the radiologist and staff provide both portions of the service, report both the Supervision and Interpretation code and the appropriate procedure code.
4. COMPLETE PROCEDURES: Procedures designated as a "complete" procedure are used to denote radiological services which are performed by the radiologist and staff only. If other physicians provide some part of the procedure, see Ground Rule 3, above.
5. SEPARATE OR INDEPENDENT PROCEDURES: Certain of the listed procedures are commonly carried out as an integral part of a total service, and as such do not warrant a separate charge. When such a procedure is carried out as a separate procedure not immediately related to other services, the MAR listed for the procedure is applicable.
6. SERVICES OR PROCEDURES LISTED IN OTHER SECTIONS: Services or procedures provided by a radiologist may be listed in another section of this Schedule (i.e., consultation listed in Evaluation and Management). The radiologist should use these procedure codes following the guidelines appropriate to that section.
7. NECESSITY OF SERVICES OR PROCEDURES: When a patient is referred to radiologists or other physicians for services covered in the Radiology section, they shall evaluate the patient's problem and determine the service(s) or procedure(s) that are medically necessary. Such evaluations and necessary consultation with the referring physician(s) is an integral part of the professional component MAR and do not merit any additional reimbursement.

Radiology

8. REPRODUCTIONS: When an insurance carrier or self-insured employer requests x-rays, photographs or other images and satisfactory reproductions thereof are furnished in lieu of the original, a fee not to exceed Five Dollars (\$5.00) or the actual cost of reproduction, whichever is less, may be charged. Reproductions are not returnable to the physician. The bill for copying should accompany the reproduction. (The use of photographic media and/or imaging is not reported separately but is considered to be a component of the basic procedure.)

In cases where the patient transfers from one physician to another the former treating physician will promptly forward all x-rays or other photographs and images or copies of such to the new treating physician.

9. RADIOPHARMACEUTICALS AND RADIONUCLIDE MATERIALS: The MAR for procedures listed in these Radiology rate tables do not include costs for radiopharmaceutical or other radionuclide materials.

LABORATORY AND PATHOLOGY GROUND RULES

General Information and Instructions

1. COVERED SERVICES: Services or procedures under this section must be performed by a registered/licensed pathologist or laboratory. MAR values in this section include recording of the specimen, performance of the test, and reporting of the result.
2. CHARGE FOR OBTAINING AND HANDLING SPECIMEN: The treating physician may charge twenty percent (20%) of the code allowable, not to exceed Ten Dollars (\$10.00), for obtaining and handling a specimen. Billing should be identified by using procedure code 99000.
3. PROCEDURE CODES: The five-digit CPT code is used to represent the pathology service which can be billed in multiple ways:
 - a. MAR is based on the total (global) pathology service including the professional service and the technical component of providing that service.
 - b. PC MAR is used when Modifier -26 is added to the five-digit CPT code to indicate that only professional component is included on the bill. The professional component includes examination of the patient, when indicated, performance and/or supervision of the procedure or lab test, interpretation and/or written report concerning the examination or lab test and consultation with referring physicians. It does not include the cost of personnel, materials, space, equipment or other facilities.

TC MAR is used when Modifier -TC is added to the five-digit CPT code to indicate that only the technical component is included on the bill. The technical component includes the charges for personnel, materials, space, equipment and other facility overhead

normally included in providing the service.

4. DRUG TESTING: Current coding for drug testing relies on a structure of "screening" (also known as "presumptive" testing), followed by quantitative or "definitive" testing that identifies the specific drug and quantity. Presumptive testing indicates the presence or absence of a drug or drug classes. Results are commonly reported as "positive" or "negative" and do not indicate the level of drug present. Definitive drug testing is most often used to evaluate presumptive drug test results and identify specific drugs and concentrations of drugs and their associated metabolites.

A definitive drug test is reimbursable if:

- a. A definitive concentration of a drug must be identified to guide treatment, or
- b. A specific drug in a large family of drugs (e.g., benzodiazepines, barbiturates, and opiates) must be identified to guide treatment, or
- c. A false result must be ruled out for a presumptive drug test that is inconsistent with a member's self-report, presentation, medical history or current prescriptions, or
- d. A specific substance or metabolite that is inadequately detected by presumptive drug testing (direct-to-definitive testing) must be identified.

CPT codes 80305, 80306 and 80307 are used for reporting presumptive drug class screening. Each code represents all drugs and drug classes performed by the respective methodology per date of service. Each code also includes all sample validation procedures performed. Definitive drug screening should be reported using HCPCS Level II codes

Laboratory and Pathology

- G0480-G0483, which are distinguished by the number of drug classes being tested, and G0659 that distinguishes between structural isomers. The AMA has developed CPT 80320-80377 for definitive drug testing; however, these codes are not valued by CMS and are not reimbursable under this fee schedule.
4. REPORT OF FINDINGS: No bill for services or procedures included in this section shall be considered properly rendered unless it is accompanied by a report that includes the findings and the interpretation of such findings.
5. SERVICES OR PROCEDURES LISTED IN OTHER SECTIONS: For the values of services common to all physicians, see the appropriate section of the schedule. Particular reference should be made to the Introduction and Ground Rules preceding the Medicine Section.
6. INDICES OR RATIOS: Tests which produce an index or ratio based on mathematical calculations from two or more other results may not be billed as a separate independent test, e.g., A/G ratio, free thyroxin index.

MEDICINE GROUND RULES

General Information and Instructions

1. GENERAL: The MAR in this section applies only when these services are performed by or under the responsible and direct supervision of a physician unless otherwise stated.
2. SEPARATE PROCEDURES: Certain of the listed procedures are commonly carried out as an integral part of a total service, and as such do not warrant a separate charge. When such a procedure is carried out as a separate entity not immediately related to other services, the indicated allowable for "Separate Procedure" is applicable.
3. PRORATION OF MAR: When the Schedule lists a MAR for a procedure or service and period of after care, and the patient is transferred from one physician to another, the employer or insurance carrier is responsible for the amount stated in the schedule. The treating physicians shall agree upon the amount of proration and shall render separate bills accordingly.
4. PROCEDURE CODES: The five-digit CPT code is used to represent the service and can be billed in multiple ways:
 - a. NO MODIFIER: The MAR is based on the total (global) service including the professional service and the technical component of providing that service.
 - b. MODIFIER 26: The MAR is based on the professional component which includes examination of the patient, performance and/or supervision of the procedure, interpretation and written report concerning the examination and consultation with referring physicians. It does not include the cost of personnel, materials, space, equipment or other facilities.
6. MODIFIER TC: indicates that only the technical component is included on the bill. The technical component includes the charges for personnel, materials, space, equipment and other facility overhead normally included in providing the service.
5. IMMUNE GLOBULIN AND VACCINES/TOXOIDS: CPT 90281-90399 identify the immune globulin product only and must be reported in addition to the administration codes 96365-96368, 96372, 96374, 96375, as appropriate. Report vaccine immunization administration codes 90460, 90461, and 90471-90474 in addition to the vaccine and toxoid code(s) 90476-90749.
6. MISCELLANEOUS: Listings and MARs for other diagnostic therapeutics, evaluation and management, surgical, anesthetic, x-ray and laboratory procedures may be found within the sections entitled "Evaluation and Management", "Surgery", "Anesthesia", "Radiology" and "Pathology".

When reporting services in which the code description and MAR is based on time, information concerning the amount of time spent must be indicated.
7. PSYCHOLOGICAL SERVICES: Psychological treatment services by a physician or licensed psychologist (PsyD, PhD, EdD) shall be reimbursed at one hundred percent (100%) of the fee schedule MAR for psychological/psychiatric services. Other non-physician providers performing psychological treatment services within the scope of their state licensure shall be reimbursed at eighty-five percent (85%) of the fee schedule allowance for behavioral health/psychological/psychiatric services.

PHYSICAL MEDICINE GROUND RULES

General Information and Instructions

1. **COVERED SERVICES:** The MAR values in this section apply only when a physician determines the services are medically warranted and the services are performed by one or a combination of health care providers rendering services within the scope of their state licensure, including:
 - a. A physician;
 - b. A licensed physical therapist;
 - c. A licensed physical therapist assistant under the direct clinical on-site supervision of a licensed physical therapist or under the general supervision of a licensed physical therapist, as provided in the rules of the State Board of Medical Licensure and Supervision;
 - d. A licensed occupational therapist;
 - e. A licensed occupational therapy assistant under the general supervision of a licensed occupational therapist, as provided in the rules of the State Board of Medical Licensure and Supervision; and/or
 - f. A licensed athletic trainer.

provided, supervised modalities under CPT codes 97010 through 97028 may be performed as described in the CPT manual.

2. **VISIT LIMITATIONS:** If **medically warranted**, physical medicine treatments may be provided over the course of one or more visits, subject to the following:
 - a. If treatment consists only of modalities under CPT codes 97010 through 97039, not more than four (4) visits are allowable unless prior authorization is obtained from the payer; and
 - b. Treatment beyond eighteen (18) visits, **in the aggregate**, must be authorized. All

care beyond eighteen visits in the aggregate shall require a specific treatment plan as provided in Ground Rule 4 of these Ground Rules.

For purposes of this Ground Rule, a "visit" occurs whenever the patient presents for and receives treatment. A patient's return on the same day for additional treatment, which is provided constitutes a separate visit.

3. **TREATMENT LIMITATIONS:** Visits are subject to the following treatment limitations:
 - a. No more than one manipulation per day is allowable, **except** on the initial and next two consecutive visits. If additional manipulations are performed on the initial and/or next two consecutive visits, the treating provider must submit a detailed report to the insurance carrier or employer regarding the need for such additional manipulations; and
 - b. For injury resulting in treatment to one body region, any combination of four (4) physical medicine codes is allowable per day. For injury resulting in treatment to more than one body region, any combination of six (6) physical medicine codes is allowable per day. (An injury resulting in treatment to more than one body region must be substantiated by the appropriate diagnosis codes.) For purposes of this Ground Rule, each application of the same physical medicine code on the same day constitutes a separate code. A functional capacity evaluation (CPT 97750) is not subject to the four-physical medicine-codes-per-day limitation provided for in this subparagraph; and
 - c. No more than four (4) modalities, (CPT 97010-97039) are allowable per day.

Physical Medicine

4. TREATMENT PLAN:

- a. A patient's medical record must include a treatment plan. The treatment plan must include the patient's diagnosis, recommended treatment frequency, modalities and procedures to be used, active and passive care treatment recommendations, and both long term and short term goals with a measurable expected response (e.g., range of motion improved by fifty percent (50%), reduction in pain by seventy-five percent (75%), and full return to work within a specific number of weeks).
- b. If treatment is provided beyond eighteen (18) visits in the aggregate, the treatment plan must specifically identify the reason suspected for the patient's non-response to prior treatment, identify any changes in the treatment plan, and include a demonstrated change in treatment with active care components and appropriate second opinion specialist referrals by the treating physician.
- c. Treatment plans must be made available upon request.
- d. No fee for preparation of the treatment plan is allowable.

5. OFFICE VISITS:

If an evaluation and management assessment is medically necessary, a physician may charge and be reimbursed for an office visit at the initial visit, after an interim corrective treatment, and at the final evaluation. Reimbursement for an office visit each time the patient presents for and receives treatment is not permitted.

6. PHYSICAL THERAPY SERVICES:

- a. All physician referrals of a patient to a physical therapist for treatment must be in writing.
- b. Reimbursement and Billing:
 - (1) Physical therapists employed by

others (i.e. not self-employed) may not bill separately from the employer.

- (2) When a physical therapist renders physical therapy during after-care periods for fractures, dislocations or other postoperative procedures, charges for such therapy shall be in addition to those of the referring physician or of the physician for the after-care period.
- (3) When a physical therapist renders treatment in a patient's home, add fifty percent (50%) to the listed MAR to determine the maximum allowable reimbursement amount. Mileage and the time it takes the physical therapist to travel to and from the patient's home and to complete any required documentation of the services provided shall not be reimbursed separately. An explanation justifying the need for home therapy rather than therapy in an office or outpatient setting must be submitted with the bill.
- (4) A licensed physical therapist may charge and be reimbursed for an initial evaluation and not more than two re-evaluations using codes 97161-97164, as appropriate. These codes are in addition to other codes allowed on the initial evaluation or re-evaluation of a patient.
- (5) All physical therapists and physical therapist assistants must include their professional license number on all bills submitted for payment.

7. OCCUPATIONAL THERAPY SERVICES:

- a. All physician referrals of a patient to an occupational therapist for treatment must be in writing.
- b. Reimbursement and Billing:
 - (1) Occupational therapists employed by others (i.e. not self-employed) may

Physical Medicine

not bill separately from the employer.

- (2) When an occupational therapist renders occupational therapy during after-care periods for fractures, dislocations or other postoperative procedures, charges for such therapy shall be in addition to those of the referring physician or of the physician for the after-care period.
- (3) When an occupational therapist renders treatment in a patient's home, add fifty percent (50%) to the listed MAR to determine the maximum allowable reimbursement amount. Mileage and the time it takes the occupational therapist to travel to and from the patient's home and to complete any required documentation of the services provided shall not be reimbursed separately. An explanation justifying the need for home therapy rather than therapy in an office or outpatient setting must be submitted with the bill.
- (4) A licensed occupational therapist may charge and be reimbursed for an initial evaluation and not more than two re-evaluations using codes 97165-97168, as appropriate. These codes are in addition to other codes allowed on the initial evaluation or re-evaluation of a patient.
- (5) All occupational therapists and occupational therapy assistants must include their professional license number on all bills submitted for payment.

8. ATHLETIC TRAINER SERVICES:

- a. All physician referrals of a patient to an athletic trainer must be in writing.
- b. Reimbursement and Billing:

- (1) Athletic trainers employed by others (i.e. not self-employed) may not bill separately from the employer.
 - (2) When an athletic trainer renders treatment during after-care periods for fractures, dislocations or other postoperative procedures, charges for such treatment shall be in addition to those of the referring physician or of the physician for the after-care period.
 - (3) When an athletic trainer renders treatment in a patient's home, add fifty percent (50%) to the listed allowable to determine the maximum allowable reimbursement amount. Mileage and the time it takes the athletic trainer to travel to and from the patient's home and to complete any required documentation of the services provided shall not be reimbursed separately. An explanation justifying the need for home therapy rather than therapy in an office or outpatient setting must be submitted with the bill.
 - (4) A licensed athletic trainer may charge and be reimbursed for an initial evaluation and not more than two re-evaluations using codes 97169-97172, as appropriate. These codes are in addition to other codes allowed on the initial evaluation or re-evaluation of a patient.
 - (5) All athletic trainers must include their professional license number on all bills submitted for payment.
9. REIMBURSEMENT FOR TIME-BASED CODES: Billing for any time-based codes shall require the practitioner to be directly engaged with the patient for a minimum of 8 minutes. If this 8-minute time threshold is met, then the provider may bill the appropriate time-based code. For example, if the sum of two services that are provided is 8 minutes or more, then the service provided for the greater amount of time will be billed

Physical Medicine

as one unit. Services exceeding 8 minutes up to and including 127 minutes, units shall be calculated as documented below:

Units	Number of Minutes
0	< 8 minutes
1	\geq 8 minutes and \leq 22 minutes
2	\geq 23 minutes and \leq 37 minutes
3	\geq 38 minutes and \leq 52 minutes
4	\geq 53 minutes and \leq 67 minutes
5	\geq 68 minutes and \leq 82 minutes
6	\geq 83 minutes and \leq 97 minutes
7	\geq 98 minutes and \leq 112 minutes
8	\geq 113 minutes and <127 minutes

10. DURABLE MEDICAL EQUIPMENT AND SUPPLIES PROVIDED IN CONJUNCTION WITH PHYSICAL MEDICINE SERVICES: Durable medical equipment and durable medical supplies used in the provision of physical medicine services are subject to different rules of reimbursement. Durable medical equipment provided by the health care provider over and above those usually included with the office visit or other services rendered is governed by the Durable Medical Equipment, Supplies, Orthotics and Prostheses Ground Rules. However, durable medical supplies used in the provision of physical medicine services shall not be reimbursed separately since the maximum allowable reimbursement (MAR) for the physical medicine codes includes the supply of materials.

DENTAL SERVICES GROUND RULES

General Information and Instructions

1. BILLING: Dental services shall be billed and reported using dental codes from the Code on Dental Procedures and Nomenclature, which is published in Current Dental Terminology, (CDT) by the American Dental Association (ADA). All rights reserved. CDT codes are five-character codes that begin with a "D" followed by four numeric digits.
2. REIMBURSEMENT: Work-related dental injuries will be reimbursed based on the lesser of the provider's usual and customary charge or the MAR in the rate tables. The MAR for dental services are based on 70% of benchmarks based on a database of provider charges in Oklahoma developed by a national, independent, nonprofit organization.
3. LABORATORY PROCEDURES: Dental laboratory procedures are included in the MAR of the associated dental procedure. No additional reimbursement shall be due.

DURABLE MEDICAL EQUIPMENT, SUPPLIES, ORTHOTICS AND PROSTHESES, PHYSICIAN ADMINISTERED DRUGS GROUND RULES

General Information and Instructions

1. **CODING AND BILLING:** The Oklahoma Workers' Compensation Commission adopts by reference the Centers for Medicare and Medicaid Services, CMS Healthcare Common Procedures Coding System (HCPCS) for the coding of durable medical equipment, supplies, orthotics and prostheses. A health care provider shall indicate on a bill presented to a payer each code contained in HCPCS for durable medical equipment, supplies, orthotics or prostheses provided or administered to the patient.

2. **REIMBURSEMENT:**

a. Except as otherwise provided in this Ground Rule, the maximum allowable reimbursement for durable medical equipment, supplies, orthotics and prostheses provided or administered to a patient shall be the lesser of the provider's usual and customary charge or ninety percent (90%) of the corresponding Oklahoma fee, in effect on the date of rental or purchase, as reflected in the CMS Durable Medical Equipment, Prosthetics, Orthotics, and Supplies (DMEPOS) Fee Schedule. The CMS DMEPOS Fee Schedule is available via at <http://www.cms.gov/DMEPOSFeeSched>

b. In the event the CMS DMEPOS Fee Schedule does not value a particular HCPCS code, reimbursement shall be the lesser of the provider's usual and customary charge or ten percent (10%) above the manufacturer's invoice price plus reasonable and customary acquisition costs of the item(s) to the provider.

b. Reimbursement for durable medical equipment, supplies, orthotics or

prostheses provided by the physician to the patient ancillary to a visit to the physician's office shall be the lesser of ten percent (10%) above the manufacturer's invoice price plus actual reasonable and customary acquisition costs of the item(s) to the provider, or ninety percent (90%) of the corresponding Oklahoma fee from the CMS DMEPOS Fee Schedule.

c. For purposes of this Ground Rule, "acquisition costs" means taxes, and shipping, freight, custom fabrication and professional fitting and adjustment fees. Supporting documentation may be required by the payer as a condition of payment for the item(s).

d. Providers of orthotics and prostheses may bill for fitting and training using CPT 97760, Orthotics management and training initial encounter each 15 minutes, CPT 97761, Prosthetics training initial encounter each 15 minutes and CPT 97763, Orthotics/ prosthetics management and training, subsequent encounter, each 15 minutes, as appropriate. The MAR for these services can be found in the Physical Medicine section of this Fee Schedule.

3. **COVERED SERVICES:** A payer shall reimburse for the purchase or rental of durable medical equipment and supplies that are medically warranted and substantiated by a written prescription or order. This section does not apply to durable medical equipment and supplies provided or administered in an inpatient hospital, inpatient rehabilitation facility or ambulatory surgical center setting. This section also does not apply to CPT codes 90281 through 90399, 90476 through 90756, and 95120

Durable Medical Equipment, Supplies, Orthotics and Prostheses, Physician Administered Drugs

through 95170, since the MAR for each of these codes includes the supply of materials.

4. PRIOR AUTHORIZATION FOR RENT/PURCHASE: Prior authorization by the employer or its insurer is required on whether to rent or purchase an item. The decision to rent or purchase shall be made within a reasonable time by the employer, an authorized representative, or the insurer, based on a cost comparison of the monthly rental fee, the prescribing health care provider's estimate of how long the item will be needed, and the purchase price.
5. PHYSICIAN ADMINISTERED DRUGS: Reimbursement for physician administered drugs billed using HCPCS J or Q codes shall be the invoice price plus 10%.

6. UNLISTED ITEMS: Use the miscellaneous HCPCS code, E1399, when no other HCPCS code is present for the durable medical equipment or supplies provided to the injured worker.

When using E1399, a detailed description of the unlisted equipment/supply and documentation supporting the provider's charge is required. Reimbursement under the miscellaneous HCPCS Code E1399 shall not exceed the cost of the item(s) to the provider plus a twenty-five percent (25%) mark-up not to exceed fifteen dollars (\$15.00) for a single item.

7. ACCREDITATION REQUIREMENTS: Pursuant to 85A O.S. § 50(H)(3)(C), any entity providing durable medical equipment, supplies, orthotics or prostheses must be accredited by an accreditation organization approved by the Centers for Medicare and Medicaid Services (CMS), unless exempted from accreditation by CMS.

AMBULANCE SERVICES GROUND RULES

General Information and Instructions

1. **BILLING:** The Oklahoma Workers' Compensation Commission adopts by reference the Centers for Medicare and Medicaid Services (CMS) Healthcare Common Procedures Coding System (HCPCS) for the coding of ambulance services.
2. **REIMBURSEMENT:**
 - a. **GROUND AMBULANCE SERVICES**
 - (1) **EMERGENCY TRANSPORT** (when the injury to the worker is so serious that immediate and rapid ambulance transportation by ground ambulance is reasonable and necessary): The maximum allowable reimbursement for emergency transportation of an injured worker by ground ambulance to the nearest place of proper treatment shall be the lesser of the provider's usual and customary charge or one hundred fifty percent (150%) of the corresponding Oklahoma fee for ground transportation, in effect on the date of service, as reflected in the CMS Ambulance Fee Schedule, .
 - (2) **NONEMERGENCY TRANSPORT:** The maximum allowable reimbursement for physician arranged and medically necessary nonemergency transportation of an injured worker by ground ambulance shall be the lesser of the provider's usual and customary charge or one hundred twenty-five percent (125%) of the corresponding Oklahoma fee for ground transportation, in effect on the date of service, as reflected in the CMS Ambulance Fee Schedule.
 - (3) **NON-TRANSPORT:** If a ground ambulance provider responds to a call for service, and provides on-site treatment but does not transport the injured worker, the appropriate HCPCS code shall be reported. The ambulance provider shall be reimbursed at the appropriate base rate, not to exceed Two Hundred Dollars (\$200.00).

b. **AIR AMBULANCE SERVICES**

- (1) The maximum allowable reimbursement for transportation of an injured worker by air ambulance to the nearest place of proper treatment shall be the lesser of the provider's usual and customary charge or one hundred percent (100%) of the corresponding Oklahoma fee for air transportation, in effect on the date of service, as reflected in the CMS Ambulance Fee Schedule.
- (2) Air ambulance transportation will only be paid if transportation is to an acute care hospital AND either the worker's medical condition requires immediate and rapid ambulance transportation that could not be provided by a ground ambulance; or the point of pick up is not accessible to a ground ambulance; or unreasonable distance or other obstacle prevents ground ambulance transportation from timely transporting an injured worker to the nearest treatment facility.

Ambulance Services

- c. The Centers for Medicare and Medicaid Services Ambulance Fee Schedule is available via the Internet at <http://www.cms.gov/AmbulanceFeeSchedule/>.
- 3. PAYMENT DISPUTES: Nothing in these Ground Rules shall be construed to preclude a payer from challenging a provider's charges.

HOSPITAL OUTPATIENT AND AMBULATORY SURGERY CENTER GROUND RULES

General Information and Instructions

1. DEFINITIONS: For purposes of this section,
 - a. Hospital Outpatient - A hospital outpatient facility is that portion of a hospital that provides services to sick or injured individuals who do not require hospitalization. Hospital outpatient services may include rehabilitation services, diagnostic and therapeutic (both surgical and non-surgical) services, laboratory tests, an emergency room or outpatient clinic, ambulatory surgical procedures and/or medical supplies. Outpatient hospital services must be medically necessary and provided by or under the supervision of a physician, dentist, or other provider having medical staff privileges in the facility.
 - b. Ambulatory Surgery Center (ASC) - An ASC is a distinct entity that operates exclusively to furnish outpatient surgical services to patients who need no hospitalization and for whom the expected duration of services is less than 24 hours following admission. ASC patients should not need active medical monitoring at midnight on the day of the procedure. ASC services must be medically necessary and provided by or under the supervision of a physician, dentist, or other provider having medical staff privileges in the ASC.
 - c. Implantables are items or devices that are billed through revenue codes 274 (prosthetic/orthotic devices), 275 (pace-maker), 276 (intraocular lens), and 278 (other implants), and are intended for permanent placement in the body. "Implantables items" which are properly indicated by revenue code 278 include rods, pins, screws, plates, prosthetic joint replacements, anchors, artificial joints,

mesh, radioactive seeds, shunts, stents, allografts, and autografts in addition to non-soluble, or solid plastic materials used to augment tissues or to fill in areas traumatically or surgically removed, and other items which are made of plastic, metallic, or of autogenous/non-autogenous graft material that are implanted in the body either alone or in combination with other materials. FDA investigational devices (if left in the patient) billed through Revenue Code 624, are not eligible for reimbursement. Implants may deliver medication, monitor body functions, or provide support to organs and tissues. A supply or instrument that is purposed to be removed or discarded during the same inpatient or outpatient procedure in which they are placed in the body is not an implant. Liquids or materials that are absorbed or incorporated by the surrounding tissue will not be reimbursed if billed as an implant. In addition to meeting the above criteria, implants must also remain in the individual's body upon discharge from the inpatient stay or outpatient procedure. Staples, sutures, clips, as well as temporary drains, tubes, and similar temporary medical devices shall not be considered implants.

2. AMBULATORY PAYMENT CLASSIFICATION (APC): The classification system developed by the Centers for Medicare and Medicaid Services (CMS) that serves as a unit of payment under the CMS Outpatient Prospective Payment System (OPPS). CMS classifies services into ambulatory payment classifications (APCs) on the basis of clinical and cost similarity and assigns a relative weight to each APC.

Hospital Outpatient and Ambulatory Surgery Center Services

3. FEES: Fees charged by a hospital outpatient or ambulatory surgery center facility shall not include any professional fees. Professional fees are considered for payment according to separately billed Current Procedural Terminology (CPT) codes and reimbursed based on the MAR in other sections of this fee schedule. The MAR for hospital outpatient facilities and ambulatory surgery centers are listed under the OP MAR column on the same line as the professional fees in each section of this fee schedule.
4. BILLING: Billing for outpatient hospital and ambulatory surgical services shall reference appropriate coding, state the actual charges billed, and, if applicable, include an invoice for implantables as provided in Ground Rule 5 of these Ground Rules. A hospital outpatient facility or ambulatory surgery center shall not knowingly charge a payer more for treatment under workers' compensation than that normally charged for similar treatment outside the workers' compensation system.

Requests for payment for outpatient services and associated goods rendered by a hospital or an ASC must be submitted on the Uniform Billing 04 form (UB-04) (or most current form as required under CMS). Facilities that bill for services on a UB-04 are required to include all appropriate CPT and HCPCS codes.

The OP MAR includes all facility services directly related to the procedure performed on the day of surgery or other treatment. Facility services include:

- a. Nursing and technician services;
- b. Use of the facility;
- c. Drugs, biologicals, surgical dressings, splints, casts and equipment directly related to the provision of the procedure;
- d. Materials for anesthesia; and
- e. Administration, record keeping and housekeeping items and services.

Implantables will be separately reimbursed.

Hospitals and ASCs will be reimbursed the lesser of billed charges or the fee schedule MAR.

5. COMPUTATION OF MAXIMUM ALLOWABLE REIMBURSEMENT: Unless otherwise indicated in these Ground Rules, the CMS hospital Outpatient Prospective Payment System (OPPS) rules and guidelines shall apply. Reimbursement for all hospital-based outpatient facility and freestanding ambulatory surgery center services shall be based on the CMS final rule payment rate for each APC group effective January 2020, to which an Oklahoma multiplier is applied. Certain outpatient procedures are assigned to APC groups that are designated with a status indicator of J1, indicating that the cost of a device or implant reflects a portion of the APC payment rate. For purposes of this fee schedule, the estimated cost of the device or implant is subtracted from the APC payment rate before applying the Oklahoma multiplier. The device or implant will be reimbursed separately, based on the invoice price as described in Ground Rule 6 below. The MAR for outpatient hospital or ambulatory surgery center facility costs are included in the rate table listings under the column OP MAR.

6. IMPLANTABLES:

- a. Hospital outpatient and ambulatory surgery centers shall be separately reimbursed for medically necessary implantables. The maximum allowable reimbursement for the implantables shall be five percent (5%) above the manufacturer's invoice price, including taxes and shipping and handling fees, less an adjustment to reflect, at the time implanted, all applicable discounts, rebates, considerations and product replacement programs. The invoice, as adjusted, shall be provided to the payer as a condition of payment for the implantable.
- b. Fifty percent (50%) of the monetary value to the facility of any discounts, rebates,

Hospital Outpatient and Ambulatory Surgery Center Services

considerations and product replacement programs applicable to an implantable occurring or earned after the time implanted shall be accounted for and paid by the facility to the payer financially responsible for the implantable, in instances where the monetary value of the discount, rebate, consideration or product replacement program on a per-patient- per-surgery basis exceeds Four Hundred Dollars (\$400.00)

7. MULTIPLE PROCEDURES:

- a. If more than one surgical procedure is furnished in a single operative encounter and none of the codes have a status indicator of J1, the multiple procedure rule applies. The primary procedure is reimbursed at the lesser of the billed charges or the OP MAR listed in the rate tables. The second and subsequent procedures are reimbursed at the lesser of the billed charges or 50% of the OP MAR listed in the rate tables. The primary procedure is the procedure with the highest OP MAR.
- b. If a procedure code is assigned a status indicator of J1, then other charges/procedure codes on the bill are considered packaged in the J1 payment and no additional reimbursement is due. If there are multiple codes with status indicator J1 on the bill, only the J1 code with the highest value will be reimbursed.

- c. Do not separately reimburse non-implantable orthotic or prosthetic devices when associated with a procedure code that has a status code of J1. Payment is packaged into the allowable for the procedure code.
 - d. Multiple procedures consisting of an endoscopic or arthroscopic procedure followed by an open procedure on the same body part or system do not warrant separate reimbursement. The higher valued procedure, usually the open procedure, should be listed on the UB-04 and will be reimbursed as the primary procedure. The endoscopic or arthroscopic procedure is considered to be part of the larger procedure and will not be reimbursed separately.
8. PAYMENT DISPUTES: Nothing in these Ground Rules shall be construed to preclude a payer from challenging a provider's charges.

This page intentionally left blank.

PHARMACEUTICAL SERVICES GROUND RULES

General Information and Instructions

1. **DEFINITIONS:** The following words and terms, when used in the Pharmaceutical Services Ground Rules, have the following meanings, unless the context clearly indicates otherwise:
 - a. **Average Wholesale Price (AWP)** - The amount determined from the latest publication of the RED BOOK®, published by IBM Micromedex.
 - b. **Nonprescription Drugs or Over-the-Counter Medications (OTC)** - Medicines or drugs which are sold without a prescription and which are prepackaged for use by the consumer and labeled in accordance with the requirements of the statutes and regulations of this state and the federal government. Nonprescription Drugs or OTCs shall not include medical marijuana for purposes of reimbursement under this Medical Fee Schedule.
 - c. **Open Formulary** - Includes all available Food and Drug Administration (FDA) approved prescriptions and nonprescription drugs, but does not include drugs that lack FDA approval, or non-drug items.
 - d. **Prescribing Practitioner** - A licensed practitioner of allopathic or osteopathic medicine, dentistry, or optometry, or, under the supervision of an Oklahoma licensed physician, an Oklahoma licensed advanced practice nurse, an Oklahoma licensed nurse practitioner or an Oklahoma licensed physician assistant, who prescribes prescription drugs or over-the-counter medications in accordance with the practitioner's professional license and state and federal laws and regulations.
 - e. **Prescription** - An order by a prescribing practitioner for a prescription or nonprescription drug to be filled, compounded, or dispensed by a pharmacist. Prescription shall not include any recommendation or permit for the use of medical marijuana for purposes of reimbursement under this Medical Fee Schedule.
 - f. **Prescription Drug** -
 - (1) A drug which is required by any applicable federal or state regulation to be dispensed on prescription only, not to include medical marijuana; or
 - (2) A drug which, under federal law, is required, before being dispensed or delivered, to be labeled with one of the following statements: "Caution: Federal law prohibits dispensing without a prescription" or "Rx Only".
2. **CLOSED DRUG FORMULARY:** The Oklahoma Workers' Compensation Commission, as mandated by 85A O.S. § 50(I), has adopted a closed drug formulary the requirements of which are set forth in Oklahoma Workers' Compensation Commission Rule 810:15-5-1, et seq.
3. **PHARMACEUTICAL SERVICES - PRESCRIPTIONS:**
 - a. A doctor providing care to an injured employee shall prescribe for the employee medically necessary prescription drugs and over-the-counter medication (OTC) alternatives as clinically appropriate and applicable in accordance with applicable state law and as provided in these Ground Rules.

Pharmaceutical Services

- b. When prescribing an OTC medication alternative to a prescription drug, the prescribing practitioner is encouraged to indicate on the prescription the appropriate strength of the medication and the approximate quantity of the OTC medication that is reasonably required by the nature of the compensable injury or occupational disease.
 - c. Physicians shall prescribe and pharmacies shall dispense generic equivalent drugs when available.
 - d. The prescribing practitioner shall prescribe OTC medications in lieu of a prescription drug when clinically appropriate.
 - e. When prescribing, the prescribing practitioner shall choose medications and drugs from the formulary adopted in Ground Rule 2 of these Ground Rules.
4. REIMBURSEMENT METHODOLOGY:
- a. PRESCRIPTION DRUGS DISPENSED BY A PHARMACY: The maximum allowable reimbursement (MAR) for prescription drugs dispensed by a pharmacy for a compensable work-related injury or occupational disease shall be the lesser of:
 - (1) the pharmacy's usual and customary charge for the same or similar service; or
 - (2) ninety percent (90%) of the average wholesale price of the prescription, plus a dispensing fee of Five Dollars (\$5.00) per prescription.
 - b. PRESCRIPTION FOR GENERIC OR NON-BRAND-NAME DRUGS: When the prescribing practitioner has written a prescription for a generic prescription drug or a prescription that does not require the use of a brand-name drug, as provided in Ground Rule 3(c) of these Ground Rules, the pharmacist shall dispense and be reimbursed for the generic pharmaceutical medication.
 - c. OVER-THE-COUNTER MEDICATIONS: When the prescribing practitioner's prescription for an over-the-counter medication includes the appropriate strength of the medication and the approximate quantity of the OTC medication that is reasonably required by the nature of the compensable injury or occupational disease, reimbursement for the over-the-counter medication shall be the retail price of the lowest package quantity reasonably available that will fill the prescription.
 - d. REPACKAGED MEDICATIONS DISPENSED BY A PHARMACY OR PROVIDER: If the National Drug Code (NDC) for the drug product dispensed is a repackaged drug, the maximum allowable reimbursement shall be the lesser of ninety percent (90%) of the average wholesale price for the original labeler's NDC or ninety percent (90%) of the average wholesale price of the lowest cost therapeutic equivalent drug product for generics and brand name drugs. For purposes of this subparagraph:
 - (1) "Original Labeler's NDC" means the National Drug Code of the drug product actually utilized by the repackager in producing the repackaged product; and
 - (2) "Therapeutically Equivalent Drugs" means drugs that have been assigned the same Therapeutic Equivalent Code starting with the letter "A" in the Food and Drug Administration's publication "Approved Drug Products with Therapeutic Equivalence Evaluations" (the "Orange Book").
 - e. COMPOUND MEDICATIONS: Compound medications shall be billed by the compounding pharmacy. Compound drugs shall be billed by listing each

Pharmaceutical Services

ingredient, the corresponding NDC, and quantity. If there is no NDC for an ingredient (e.g. distilled water), it will not be reimbursed. If the NDC for the compound ingredient is a repackaged drug, the maximum allowable fee for the repackaged drug is determined per subparagraph d of this ground rule. The maximum allowable reimbursement for the compound medication shall be based upon the sum of the allowable fee for each ingredient plus a dispensing fee of five dollars (\$5.00) per prescription for the compound medication.

- f. MEDICATION, OTHER THAN REPACKAGED MEDICATION, DISPENSED BY A PROVIDER: Provider offices that prescribe and dispense non-repackaged medications from their office shall be reimbursed the lesser of:
- (1) ninety percent (90%) of the average wholesale price of the prescription; exclusive of any dispensing fee, or
 - (2) the amount for the prescription drug(s) at the payer's contracted rate with a mail order provider, if any, at the time the medication was dispensed by the provider's office; or
 - (3) the amount for the prescription drug(s) obtained at a retail pharmacy as determined in Pharmaceutical Services Ground Rule 4(a).

If reimbursement is made pursuant to Pharmaceutical Services Ground Rule

4(f)(2), the payer's explanation of benefits (EOB) shall include the contracted mail order provider's pricing information for each medication billed, the name and address of the mail order provider whose contracted rates were used in calculating the reimbursement, and the commencement and termination dates of the mail order contract.

- g. SCOPE OF THIS GROUND RULE: This ground rule applies to the dispensing of all drugs except inpatient hospital drugs, inpatient rehabilitation facility drugs, ambulatory surgical center drugs and parenteral drugs.
5. BILLING: The date the item was dispensed, the metric quantity of the item dispensed, the appropriate National Drug Code (NDC) number of the item dispensed, and the usual and customary charge of the dispensing entity for the medication or drugs must be included on each billing.
6. AUTHORIZED PRESCRIPTION NECESSARY: Any medication or drugs not specifically prescribed by a health care provider shall not be reimbursed.
7. REIMBURSEMENT TO AN INJURED WORKER: An injured worker may be reimbursed by a payer for actual expenses incurred for reasonable and necessary medication related to the injury that was purchased during the employer's failure or refusal to provide such medication within seven (7) days of actual notice of the injury, or in relation to emergency treatment not provided by the employer.

This page intentionally left blank.

INPATIENT HOSPITAL SERVICES GROUND RULES

General Information and Instructions

1. **DEFINITIONS:** For purposes of this Schedule of Hospital Fees,
 - a. Audited charges means those charges that remain after deducting charges for services which are not documented as rendered during the admission and charges for items and services which are not related to the compensable injury or occupational disease. The formula to obtain audited charges is as follows: Total Charges - Deducted Charges = Audited Charges. The payer may have the bill audited at its own expense and shall provide the detailed results of the audit to the provider upon request.
 - b. Implantables means those services indicated by revenue codes 274 (prosthetic/orthotic devices), 275 (pace maker), 276 (intraocular lens), and 278 (other implants), which involve an item or device intended for permanent placement in the body. "Implantable items" include rods, pins, screws, plates, prosthetic joint replacements, and other items properly indicated by revenue code 278 which are made of plastic, metallic, or of autogenous/non-autogenous graft material. Services billed through revenue code 624 (FDA Investigational device (if left in the patient)) are not eligible for reimbursement.
 - c. Inpatient means being confined to a hospital setting for a stay that is expected to cross two or more midnights and where the medical record supports that expectation. This includes stays in which the physician's expectation is supported, but the length of the actual stay was less than two midnights due to unforeseen circumstances such as unexpected patient death, transfer, clinical improvement or departure against medical advice. An inpatient stay does not require official admission to the hospital.
2. **REIMBURSEMENT AND BILLING:** Except as otherwise provided in Ground Rules 4 and 5 of these Ground Rules, reimbursement for inpatient hospital services shall be limited to the maximum allowable reimbursement per inpatient stay as computed in Ground Rule 3 of these Ground Rules, or the hospital's usual and customary charge, whichever is less. Billing for inpatient hospital services shall reference the MS-DRG code, state the actual charges billed, and, if applicable, include an invoice for implantables as provided in Ground Rule 4 of these Ground Rules. A hospital shall not knowingly charge a payer more for treatment under workers' compensation than that normally charged for similar treatment outside the workers' compensation system.
3. **COMPUTATION OF MAXIMUM ALLOWABLE REIMBURSEMENT:** The maximum allowable reimbursement per inpatient stay shall be computed as follows:

MAXIMUM ALLOWABLE REIMBURSEMENT
= Medicare MS-DRG Relative Weight
x \$5,020.73.

The MS-DRG Relative Weight is established by CMS and becomes effective on October 1 each year. The file containing the MS-DRG Relative Weights is available at:
<https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/AcuteInpatientPPS>.

For example, for MS-DRG 461 in 2020, when the total audited charges for the hospital inpatient stay, excluding charges attributable to implantables, is less than \$98,000.00, the maximum allowable reimbursement is calculated as follows:

Inpatient Hospital Services

MAR = 5.3788 x \$5,020.73 = \$27,005.48.

4. IMPLANTABLES:

- a. Generally, durable medical equipment and supplies provided or administered in an inpatient hospital setting are not separately reimbursed since they are included in the Medical Severity Diagnosis Related Groups (MS-DRG) payment rate. However, surgical implantables as defined in Rule 1 of these Ground Rules which are medically necessary are excepted from this rule. Accordingly, inpatient hospitals shall be separately reimbursed for medically necessary implantables. The maximum allowable reimbursement for the implantables shall be five percent (5%) above the manufacturer's invoice price, including taxes and shipping and handling fees, less an adjustment to reflect, at the time implanted, all applicable discounts, rebates, considerations and product replacement programs. The invoice, as adjusted, shall be provided to the payer as a condition of payment for the implantable.
- b. Fifty percent (50%) of the monetary value to the hospital of any discounts, rebates, considerations and product replacement programs applicable to an implantable occurring or earned after the time implanted shall be accounted for and paid by the hospital to the payer financially responsible for the implantable, in instances where the monetary value of the discount, rebate, consideration or product replacement program on a per-patient-per-surgery

basis, exceeds Four Hundred Dollars (\$400.00).

5. STOP-LOSS METHOD:

- a. PURPOSE AND APPLICATION: Stop-loss is an independent reimbursement methodology that will reimburse the hospital for unusually costly services rendered during treatment to an injured worker. No charge attributable to implantables shall be considered for purposes of determining eligibility for, and reimbursement under, stop-loss.
- b. COMPUTATION OF THE MAXIMUM ALLOWABLE REIMBURSEMENT UNDER STOP-LOSS FOR CATASTROPHIC INJURIES: To be eligible for the stop-loss payment, the total audited charges for the hospital inpatient stay for treatment of major burns, severe head and neurological injuries and multiple system injuries, excluding charges attributable to implantables, must be at least Ninety Eight Thousand Dollars (\$98,000.00), the minimum stop-loss threshold. If the total audited charges for the hospital inpatient stay equal or exceed the minimum stop-loss threshold, the total audited charges are then multiplied by seventy percent (70%) to determine the maximum allowable reimbursement. For purposes of this calculation, "audited charges" do not include any charges for implantables since implantables are reimbursed separately under Ground Rule 4 of these Ground Rules.

Inpatient Hospital Services

Catastrophic injuries are those injuries identified by the following MS-DRG codes:

MS-DRG codes for major burns:	
927	EXTENSIVE BURNS OR FULL THICKNESS BURNS W MV >96 HRS W SKIN GRAFT
928	FULL THICKNESS BURN W SKIN GRAFT OR INHAL INJ W CC/MCC
929	FULL THICKNESS BURN W SKIN GRAFT OR INHAL INJ W/O CC/MCC
933	EXTENSIVE BURNS OR FULL THICKNESS BURNS W MV >96 HRS W/O SKIN GRAFT
MS-DRG codes for severe head and neurological injuries:	
082	TRAUMATIC STUPOR & COMA, COMA >1 HR W MCC
085	TRAUMATIC STUPOR & COMA, COMA <1 HR W MCC
088	CONCUSSION W MCC
MS-DRG codes for multiple system injuries:	
955	CRANIOTOMY FOR MULTIPLE SIGNIFICANT TRAUMA
956	LIMB REATTACHMENT, HIP & FEMUR PROC FOR MULTIPLE SIGNIFICANT TRAUMA
957	OTHER O.R. PROCEDURES FOR MULTIPLE SIGNIFICANT TRAUMA W MCC
958	OTHER O.R. PROCEDURES FOR MULTIPLE SIGNIFICANT TRAUMA W CC
963	OTHER MULTIPLE SIGNIFICANT TRAUMA W MCC
MS-DRG codes for other catastrophic injuries:	
856	POSTOPERATIVE OR POST TRAUMATIC INFECTIONS W O.R. PROC W MCC
862	POSTOPERATIVE & POST TRAUMATIC INFECTIONS W MCC
901	WOUND DEBRIDEMENTS FOR INJURIES W MCC
904	SKIN GRAFTS FOR INJURIES W CC/MCC
907	OTHER O.R. PROCEDURES FOR INJURIES W MCC
913	TRAUMATIC INJURY W MCC
981	EXTENSIVE O.R. PROCEDURE UNRELATED TO PRINCIPAL DIAGNOSIS W MCC

Inpatient Hospital Services

- c. COMPUTATION OF THE MAXIMUM ALLOWABLE REIMBURSEMENT UNDER STOP-LOSS FOR INJURIES OTHER THAN CATASTROPHIC INJURIES: To be eligible for the stop-loss payment for treatment of injuries other than catastrophic injuries described in subparagraph b of this Ground Rule, the total audited charges for the hospital inpatient stay, excluding

charges attributable to implantables, must be at least Seventy Thousand Dollars (\$70,000.00), the minimum stop-loss threshold. If the total audited charges for the hospital inpatient stay are equal to or exceed the minimum stop-loss threshold, the maximum allowable reimbursement under stop loss shall be computed as follows:

MAXIMUM ALLOWABLE REIMBURSEMENT = [Total Audited Charges – (MS-DRG reimbursement per Ground Rule 3 x 50%)] x 65%.

For example, MS-DRG 461
Billed charges = \$150,000
Implant Charges = \$25,000
Total Audited Charges = \$125,000

Since the total audited charges exceed the minimum stop-loss threshold, the MAR is calculated as follows:

MS-DRG reimbursement per Ground Rule 3 = $5.3788 \times \$5,020.73 = \$27,005.48$.

$$\begin{aligned} \text{MAR} &= [\$125,000 - (\$27,005.48 \times 50\%)] \times 65\% \\ &= (\$125,000 - \$13,502.74) \times 65\% \\ &= \$111,497.30 \times 65\% \\ &= \$72,473.22 \end{aligned}$$

For purposes of this calculation, "audited charges" do not include any charges for implantables since implantables are reimbursed separately under Ground Rule 4 of these Ground Rules.

6. PAYMENT DISPUTES: Nothing in these Ground Rules shall be construed to preclude a payer from challenging a provider's charges.

INPATIENT REHABILITATION FACILITY SERVICES AND SKILLED NURSING FACILITY GROUND RULES

General Information and Instructions

1. **DEFINITIONS:** For purposes of this section,
 - a. Inpatient Rehabilitation Facility means a free-standing rehabilitation hospital or rehabilitation unit in an acute care hospital that provides an intensive rehabilitation program on an inpatient basis.
 - b. Inpatient means admission to a rehabilitation facility for bed occupancy for purposes of receiving inpatient rehabilitation facility services.
 - c. A Skilled Nursing Facility means a facility that provides 24-hour care for patients requiring skilled nursing care and/or skilled therapy.
2. **REIMBURSEMENT FOR SKILLED NURSING FACILITIES:** Reimbursement shall be based at 110% of the CMS per diem prospective payment system (PPS) for the skilled nursing facility, covering all costs (routine, ancillary, and capital) of covered SNF services furnished to patients. The files are available at:
<https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/SNFPPS>.
3. **REIMBURSEMENT AND BILLING FOR INPATIENT REHABILITATION:** Reimbursement for inpatient rehabilitation facility services shall be limited to the maximum allowable reimbursement per inpatient rehabilitation stay as computed in Ground Rule 4 of these Ground Rules, or the facility's usual and customary charge, whichever is less. Billing for inpatient rehabilitation facility services shall reference the Centers for Medicare and Medicaid Services (CMS) Case-Mix Groups (CMG) code and applicable Tier, and the injured worker's length of stay, and state the actual charges billed. An inpatient rehabilitation facility shall not knowingly charge a payer more for treatment under workers' compensation than that normally charged for similar treatment outside the workers' compensation system.
4. **COMPUTATION OF MAXIMUM ALLOWABLE REIMBURSEMENT:** Inpatient rehabilitation services are reimbursed under the following formulas based on:

Inpatient Rehabilitation Facility and Skilled Nursing Facility Services

MAR = Maximum Allowable Reimbursement LOS = Injured Worker's Length of Stay

ALOS = Average Length of Stay value for the applicable CMG and Tier base rate = \$4,875.17

a. WHEN LOS IS LESS THAN 35 DAYS

- (1) If LOS is less than or equal to 7 days:

MAR = the Base Rate of \$4,875.17.

- (2) If LOS is greater than 7 days and less than 35 days, but less than or equal to the ALOS:

MAR = Base Rate + [(LOS - 7) x \$987.33].

For example, a case with CMG 101, Tier 1, hospitalized for 9 days would be reimbursed as follows:

MAR = \$4,875.17 + [(9 - 7) x \$987.33] = \$4,875.17 + \$1,974.66 = \$6,849.83

- (3) If LOS is greater than 7 days and less than 35 days, but greater than the ALOS:

MAR = Base Rate + [(ALOS - 7) x \$987.33] + [(LOS - ALOS) x \$493.67].

For Example, a case with CMG 101, Tier 1, hospitalized for 15 days would be reimbursed as follows:

MAR = \$4,875.17 + [(11 - 7) x \$987.33] + [(15 - 11) x \$493.67]
= \$4,875.17 + \$3,949.32 + \$1,974.68
= \$10,799.17

b. WHEN THE LOS EQUALS OR EXCEEDS 35 DAYS, REGARDLESS OF THE ALOS: If the LOS equals or exceeds 35 days, regardless of the ALOS, the maximum allowable reimbursement shall be as follows:

MAR = Base Rate + [(LOS - 7) x \$987.33].

For example, a case with CMG 101, Tier 1, hospitalized for 40 days would be reimbursed as follows:

MAR = \$4,875.17 + [(40 - 7) x \$987.33]
= \$4,875.17 + \$32,581.89
= \$37,457.06

5. PAYMENT DISPUTES: Nothing in these Ground Rules shall be construed to preclude a payer from challenging a provider's charges.

Inpatient Rehabilitation Facility and Skilled Nursing Facility Services

CMG	CMG DESCRIPTION (M=MOTOR, A=AGE)	AVERAGE LENGTH OF STAY			
		TIER 1	TIER 2	TIER 3	NONE
